

CURRICULUM VITAE

BRIEF BIOGRAPHY

Terence T. Ow is a Professor of Information Systems and Analytics in the Management Department, College of Business Administration. He currently holds a joint appointment in the Department of Computer Science, Klinger College of Arts and Sciences. He is a recipient of the John P. Raynor, S.J., Faculty Award, Marquette University highest honor for Teaching Excellence. He was inducted as an honorary faculty member of Alpha Sigma Nu, Jesuit Honor Society for his dedication to the Jesuit ideals of scholarship, loyalty, and service at Marquette University. In 2023, he is recognized as Poets and Quants Top 50 best undergraduate business professors. Dr. Ow completed his Ph.D. in Business at the University of Wisconsin-Madison. He was previously a faculty member at the Wisconsin School of Business, University of Wisconsin-Madison and Mendoza College of Business, University of Notre Dame.

His research focuses on the effects of information technology, especially emerging areas, on individual or organization performance, online community participation and knowledge creation. His research has been published in information systems and management science journals including *MIS Quarterly*, *Journal of Operations Management*, *Communications of the ACM*, *Decision Sciences*, *European Journal of Information Systems*, *Information & Management*, *Journal of Organizational Computing and Electronic Commerce*, *INFORMS Journal on Computing*, *Fuzzy Sets and Systems* and *European Journal of Operational Research*. His research has won best paper in the *Hawaii International Conference on System Sciences 2019*. He currently serves as Associate Editor for *Journal of Organizational Computing and Electronic Commerce*, and *Distributed Ledger Technologies: Research and Practice*, an ACM journal. He is also a founding member of the Technical Committee on Blockchain and Distributive Ledgers Technologies at IEEE Technology and Engineering Management Society.

His teaching interests include technology strategy, systems analysis and design, database management systems, emerging technology, full stack web applications development, business analytics technology utilizing Python and R. Students from his information systems courses are usually engaged in a semester-long rigorous service-learning project to design and create a database solution to benefit local service organizations. His courses have created prototype database systems for more than a hundred social organizations in Milwaukee to streamline and automate the organization's activities. He takes pride in his innovative teaching and continues to strive to provide an enriching learning experience for his students at Marquette University and previously at University of Notre Dame and University of Wisconsin-Madison.

In 2019, he was recognized as Marquette Faculty All-Star for his service, research, and teaching. He is also a recipient of the College of Business Administration Miles Teaching Fellow and was the Faculty Advisor of the Year for Marquette University in recognition of his involvement with student organization and engagement. He was a member of the steering committee for the Wisconsin Entrepreneurs' Conference 2009 and served as a member of the technology task force for United Performing Arts Fund 2009-2012. He has moderated panels for Milwaukee Institute and has also been cited in Milwaukee Journal Sentinel and BizTimes Magazine of Milwaukee on topics such as FinTech, mobile banking, and Internet access for consumers.
