

## MCC / UCCS Substitutions

In general, students entering prior to fall of 2018 are expected to complete their UCCS requirements as planned. However, for students with special concerns that make finding classes to graduate on time particularly challenging, the MCC has identified that the following MCC courses can substitute for UCCS requirements. Students may not double dip – that is each MCC substitution can be used to fulfill only one UCCS requirement. These substitutions apply only to courses *taken in Fall 2018 or after*. Any student who wishes to substitute an MCC course for a UCCS course needs to complete a [substitution form](#).
