

WOMEN EXPERIENCE MORE PAIN THAN MEN — *& What to Do About It!*

11.03.2022

3:00–4:30 PM

Marquette University AHPRC

PANELISTS:

Marie Hoeger Bement, MPT, PhD

Professor, Physical Therapy
Marquette University

Sandra Hunter, PhD, FACSM

Professor, Exercise Science
Marquette University

Sarah Trost, PhD

Assistant Professor, Clinical Psychology
Medical College of Wisconsin & Froedert Clinics

Join IWL as we further explore the differences in pain perception, why women experience more pain than men, and what can be done to better manage one's pain with experts on this interdisciplinary topic. This panel on pain perception and management is open to the public and provides the opportunity for attendees to ask questions on the subject. For more insight into sex differences in pain perception, check out IWL's latest paper by the same title – now available online!
