The meeting officially began at 2:35pm. The main topic at hand for the members was to approve the recommendation to the Academic Senate on full time, non-tenure track nomenclature. After some additional, but minimal changes to language the committee unanimously approved the recommendation.

The Chair concluded the meeting by stating that Stephen Ryan would not return to the committee for the following semester due to student teaching obligations. Additionally, the Chair asked members to think about other topics the committee could tackle in the upcoming months.

The next meeting had not been set, but would most likely take place during the first few weeks of spring semester.
