Recorder: Patrick Loftis

**Absent and Excused:** Gary Meyer, Scott D’ Urso, Mike Class, Jenn Fishman, Shaun Longstreet, Kevin Rich, Thimas Schick, Janice Welburn

**Approval of Minutes**  
The minutes of the 11/21/14 meeting were reviewed and approved.

**New Business**  
Kathy led a discussion on a student Educause survey that is upcoming. She asked the group if was interested in participating as we have never done this before. Jon suggested that we are active in the organization and we should consider it. He also suggested we find out more details, including how long it takes and if students and/or institution receive anything for participating. Kathy clarified that we do receive a copy of the report. Select students are queried, however the number of students surveyed is unknown. The consensus of the group was to apply and participate in this survey, which Kathy will facilitate.

A visionary exercise was undertaken by James Brust. This was recorded and the written data will be compiled for future use.

Kathy Lang mentioned that the student internet “pipe” will be doubled over the break to 2GB. She also discussed how guests may use wireless internet via calling the help desk.

**Old Business**  
An update on the technology day was discussed. Bryan Alexander has been confirmed as a keynote speaker for technology.

The meeting was adjourned at 2:40PM.
