Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

78% of our 2010 graduating students who applied to professional programs (e.g., medical school, dental school, physician assistant programs, etc.) were accepted. The department feels that this is a strong indication of our commitment to monitor the latest demands of the medical community and to match our curriculum accordingly.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

Since the biochemistry options with the BISC major have expanded to a choice between two courses, both courses, BISC 2070, Biochemistry for the Health Professions and BISC 3213 Biochemistry, will be included in Learning Outcome 3. The faculty will continue to calibrate exam questions so they closely relate to the material presented in class to more accurately reflect assessment goals.
