Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

The first four years of assessment data for the MS program in civil engineering show that our graduates perform at a level that is above the average expected of holders of MS degrees in civil engineering. This above-average performance is exhibited across all of the program's learning outcomes.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.
