Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

92% of students met or exceeded desired levels of proficiency related to Learning Outcomes 1, 2, & 5. Faculty is gratified with student achievement. Additionally, 92% of students enrolled in the upper division courses met or exceeded desired levels of proficiency related to Learning Outcomes 3 & 4.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

 Fewer than 40% of students enrolled in the lower division course on argumentation met or exceeded desired levels of proficiency related to Learning Outcomes 3 & 4. This data coupled with previous assessments of this course point to the need for a general review of the course and its objectives in an effort to improve student performance and learning.
