Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

The University Core of Common Studies saw a marked improvement in the integration and application of the perspectives, concepts, and traditions of multiple disciplines toward societal challenges over the last year, and continues to show strong results in our other program learning objectives. The Core Curriculum Review Committee is pleased with this improvement, and the continuing evidence of the ongoing success of the Core of Common Studies.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

While there has been some clear improvement in mathematical reasoning recently, this remains an area of weakness for our students. The CCRC will continue to encourage the integration of mathematical reasoning across the curriculum.
