Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

Nine of or nine, or 100% of students effectively mediated cases in a court-connected setting under the supervision of a faculty member. Nine out of Nine, or 100% of students demonstrated the ability to apply ethical standards in a dispute resolution process. The department is pleased that this assessment indicates that our current methods of instruction are yielding such a high number of students who meet all of the Dispute Resolution program's learning outcomes.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

The addition of agency or field setting for students to mediate cases will provide additional and varied subject matter to expand their mediation experience.
