Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

The committee was pleased that two of the four students who completed dissertations in the past year were rated "exemplary" by their committee members on most indicators for Program Outcomes 2 and 3.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

At the DQE and dissertation stage, some students seem to be challenged by the task of synthesizing a body of educational literature. Since this is a critical skill for conducting research, the faculty will work to ensure that students develop this skill in earlier, required program course work.
