Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

The large majority of Finance majors were assessed as meeting or exceeding the performance indicators of the Finance learning outcome. The department is pleased with the overall results. The department has concluded that the current course structure appears to be meeting the department needs.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

Across semesters, the performance indicator of FINA 4011 with the larger percentage of students in the "developing" performance level has been the application of portfolio theory. A new assignment will be introduced in FINA 4011 to address this issue. Students will be required to create and track the performance of a hypothetical portfolio of securities that will be used as a ‘real world’ backdrop for the concepts covered in the course.
