Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

Multiple assessments indicate that students in majors in the modern languages develop a high level of linguistic accuracy evident in speaking situations and in writing, and strong cultural knowledge demonstrated in oral presentations in the classroom.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

The department will focus on features (in addition to linguistic accuracy) that characterize proficiency in speaking and writing, and develop classroom activities, assignments, and grading rubrics that reflect these multiple aspects.
