Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

Overall, students are performing at, or above, the proficient level, particularly in the more applied areas. This suggests that their learning in the program has been meaningful and multifaceted and that they are equipped to enter their professional life.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

Students worldwide struggle with mathematical abstraction and proof. Ours are no exception. We anticipate that program modifications adopted for incoming students in 2007-2008 should address this ongoing challenge.
