Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

Marquette University Doctor of Physical Therapy students are some of strongest students on campus. They excel in their performance on the national licensure exam with scores well above the national average for the composite score and all individual content areas. Marquette students are active in service to the profession being leaders in fundraising for the Foundation for Physical Therapy. Marquette's national ranking of 19th out of 212 accredited programs nationwide (US News World Report 2008) speaks to the outcomes the DPT students have achieved.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

The Department has a plan and a proposal before the University for an on-campus clinic. Final implementation is still pending as of 9/10, but we anticipate a clinic opening in early 2011. This clinic is anticipated to provide our current students with on-campus learning opportunities in the area of providing physical therapy services in essential practice areas as defined by the Guide to Physical Therapist Practice.
