Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

It is pleasing to note that, on average, our students empirical performance indicators all raise throughout their time in the Naval Science Department; LO’s 1 & 2 apply.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

As stated in previous years, the "real test" comes a few years from now when our graduates are in their first operational units. Even then, the tangible data of the performance is not readily available.

One way this current administration is attempting to improve student learning is through the development of a Mid to Long-Term Vision Statement for the department. In this, all facets of the program will have a common outlook to guide any minor or major changes in the educational foundations.
