Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

Based upon the data collected from student users almost 71 percent of those users exercised 30 minutes or more per day four or more days per week. Additionally, 50 percent exercised 30 minutes or more per day for five or more days per week.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

The department is in agreement that all of the current learning outcomes need careful analysis and possible revision. New learning opportunities need to be identified with specific measures that truly demonstrate student learning.
