Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

Given the competitive nature of graduate school admission, our students continue to be considered desirable candidates for graduate school admission. The success MU-SPPA students have in obtaining admission to a graduate program in speech-language pathology or audiology suggests that graduate programs perceive our students as being well prepared for work at the graduate level and have the requisite skills to be successful.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

Given last year’s and this year’s results, it is evident that faculty are applying formative and summative assessments and utilizing the results to facilitate student progress.
