Provide an example of the program’s most interesting or important assessment finding that demonstrates the program’s success associated with a program learning outcome.

84% of our undergraduate theology majors met or exceeded the standards of our first learning outcome.
89% of our undergraduate theology majors met or exceeded the standards of our second and third learning outcomes. These statistics have led us to the improvement actions described above.

Describe an assessment result that indicates an opportunity for improvement and identify the specific actions the program will take to improve student learning.

The low scores for the second and third learning outcomes were not the norm for overall performance.
