HEALTHCARE TECHNOLOGIES MANAGEMENT M.S. (August 2006)
At the completion of the Healthcare Technologies Management M.S. degree program, the graduate is able to:

1. Apply knowledge of fundamental business operations (marketing, finance, accounting, and organizational behavior) to the management of healthcare technology.

2. Describe the economic, legal, ethical, and regulatory aspects of healthcare delivery and medical device development.

3. Acquire knowledge and develop skills needed to manage the personnel and processes required for the design, development, commercialization, and regulatory compliance of medical devices.
