

Part Time jobs /Volunteer Positions/Summer Internships

Part Time Jobs

Laboratory Assistant Department of Biological Sciences Marquette University

Faculty research laboratories frequently hire students on a part time basis for laboratory work ranging from general duties such as washing glassware to carrying out independent research projects. These positions can be paid hourly or independent research projects can receive academic credit as BIOL195.

Contact Person: Ms. Deborah Weaver, Wehr Life Sciences, room 108, 414-288-7355,
Deborah.weaver@marquette.edu

Discovery World

A variety of jobs open up occasionally including those for part-time weekend instructors to teach interactive classes and workshops. Available positions and internships are posted regularly on their website.

Summer Internships/Jobs

Summer Research Program in Biology

Department of Biological Sciences

Marquette University

Participants conduct independent research projects in faculty laboratories in the areas of microbiology, molecular biology, cell biology, developmental biology, plant biology, neurobiology or invertebrate/vertebrate physiology. Students also participate in weekly journal clubs, a poster session and a symposium. Students receive a \$3500 stipend for the summer and are encouraged to continue their research as a part time independent study in the following school year (BIOL195). Applications are due January 31st for the following summer.

Contact Person: Ms. Deborah Weaver, Wehr Life Sciences, room 108, 414-288-7355,

Deborah.weaver@marquette.edu.
