

MARQUETTE
UNIVERSITY
Department of Chemistry

SECOND ANNOUNCEMENT

Dear Colleagues of Chuck Wilkie;

As you know Chuck will be retiring from teaching at Marquette University in May 2009 after a distinguished career in teaching and research spanning over forty years. We will celebrate and acknowledge his accomplishments with a Symposium in his Honor on Saturday June 6th, 2009 on the Marquette campus. The full day Symposium will begin at 8:30 AM with registration and coffee followed by morning and afternoon sessions of talks presented by twelve former students and research collaborators.

The day will conclude with a reception and banquet dinner at the Coast restaurant.

More details concerning the Symposium and banquet dinner will be posted on the Chemistry department website: <http://www.marquette.edu/chem>.

I hope you can join us in honoring Chuck for his excellent teaching and student mentoring and for his productive research career involving lasting contributions to the University and the wider International scientific community, especially in the area of Flame Retardation Research.

Please acknowledge receipt of this SECOND ANNOUNCEMENT and let Linda Davis know if you can join us for the Symposium, lunch at the AMU and banquet reception and dinner at Coast so we can develop a list of attendees and a count for lunch and dinner.

Please contact Linda by calling the department office at 414-288-3515 or by e-mail at muchem@mu.edu by April 17th to receive further registration and program details.

I look forward to hearing from you and seeing you at the Symposium.

Cheers,

Mike McKinney
