2nd Annual

Maker Faire®
Milwaukee
is seeking teams to participate in the

GE Design & Build Challenge

It’s back. It’s bigger. It’s not brain surgery.
Saturday, September 26, noon - 4 p.m.
Wisconsin State Fair Park

What is the GE Design & Build Challenge?
A real-world challenge that allows makers to show off their skills, creativity and resourcefulness! On the day of the event, teams will receive their surprise challenge, a work space and tools, access to a hack rack of raw materials and time to create. Then, it’s off to the Challenge course, where judges and audience participation will determine the winning team!

Who can participate?
Anyone age 16 or older can register as a team to represent a school, business, corporation or organization, or as an individual. Teams consist of four people; those who register as individuals will be placed on a team.

What do we win?
Maker Faire Milwaukee will award the winning team with the 2015 GE Design & Build Challenge trophy, t-shirts, subscriptions to MAKE: magazine and other cool Maker Faire swag.

How can I register?
Pre-register at www.makerfairemilwaukee.com
Teams registered by September 11 will receive a team sign at the Challenge, and their participation will be announced in a news release. Participation is limited.

Look for the junior edition of the GE Design & Build Challenge for kids of all ages and families on September 27!

Maker Faire® Milwaukee
September 26 & 27 at Wisconsin State Fair Park
Part science fair...part county fair...part something new! A free, family-friendly festival celebrating innovative technology and engineering projects, arts, crafts and trades, and the enthusiast, tinkerer and do-it-yourselfer in all of us.
