The scope of Endodontics covers a wide range of diagnostic, treatment procedures and challenges often resulting in a wide range of interesting and sometimes perplexing situations for the clinician. This clinically-based and literature-supported program will attempt to highlight many of these issues that are often forgotten during a day in practice that focuses primarily on performing root canal procedures.

- Issues to be addressed include:
  - Treatment planning integrated challenges to tooth retention
  - Integrated Endodontic/Orthodontic relationships
  - Challenges faced in managing tooth resorption
  - Vital pulp therapy – is it really viable
  - Influence of root canal shaping and final shape on canal obturation
  - What is the real meaning of success with the scope of Endodontics

About the presenter:
Dr. James Gutmann, a 1970 graduate of Marquette University School of Dentistry, is Professor Emeritus in Restorative Sciences/Endodontics, Baylor College of Dentistry, Texas A&M University Health Science Center, Dallas, Texas. He is a Diplomate of the American Board of Endodontics, Past President of the American Associate of Endodontists, President of the American Academy of the History of Dentistry and Editor of the Journal of the History of Dentistry. He has presented over 800 lectures, papers, and continuing education courses in the United States and 52 foreign countries. Additionally he has authored or co-authored over 300 articles in dental journals and three text books that address scientific, research, educational, and clinical topics and has taught full time for over 27 years at three major universities. He serves as a Consultant to Dentsply Sirona Global Endodontic SBU.
This is a 5 hour CE course and lunch will be provided. Marquette University School of Dentistry is dedicated to supporting the profession of endodontics. We are pleased to invest in this event for you so that your fee can be used to invest in the future of the Marquette University School of Dentistry Hal Gerstein Study Club.

A meeting of the Wisconsin Association of Endodontists will follow the program.
