- Master of arts in counseling, curriculum and instruction, and educational policy and foundations
- Master of science in clinical mental health counseling
- Master of education in college student personnel administration, elementary education, literacy, and secondary education

This is our College ceremony, and as such, all candidates for graduation will walk across the stage beginning with the undergraduates and ending with our doctoral candidates (hooding of May doctoral candidates occurs at the university commencement ceremony).

There are no tickets for this event, but we require check-in at the door. So, we request that you limit in the number of guests to four in order to accommodate all of our graduates. Please RSVP, as we need an accurate count of attendees in the event that someone needs to request extra seating.

All candidates for graduation should wear graduation apparel (cap and gown).

Please note that attendance at this ceremony is not mandatory, but Master’s level candidates who complete their program in May will receive their diplomas after the ceremony.
