PREFACE

The Women's Programs Office of the American Psychological Association developed the *Directory of Selected Scholarships, Fellowships and Other Financial Aid Opportunities for Women and Ethnic Minorities in Psychology and Related Fields* to assist students and professionals in identifying avenues of funding. It is recommended that the reader review various sections of the directory given that some funding sources disseminate awards in various categories of study, i.e. graduate and doctoral.

Please note that information listed in this directory is subject to change without notice by the awarding organization. For the most up-to-date information (i.e., awards, deadlines, eligibility, etc.) we recommend that you contact each organization directly.

Fellowships

Undergraduate

American Psychological Association Minority Fellowship Program Minority Aging Network in Psychology (MANIP) Fellowship

Amount: Not listed

Purpose: The Minority Fellowship Program's (MFP) objective is to increase the knowledge of issues related to ethnic minority mental health and to improve the quality of mental health treatment delivered to ethnic minority populations. We do this by providing financial support and professional guidance to individuals pursuing doctoral degrees in psychology.

The Minority Aging Network in Psychology (MANIP) will host its 5th Annual Summer Institute on Aging during the week of June 15-21, 2003 at Pennsylvania State University. The week-long summer institute is designed to increase the pool of ethnic minority researchers in the field of gerontology. Participants may anticipate engaging presentations, didactic seminars, methodological workshops, and a host of professional development and networking opportunities that are in keeping with the 2003 theme, "Social Support and Minority Families," and that are related to aging, ethnicity, and cognition.

Eligibility: The MANIP Summer Institute on Aging is available to undergraduate junior and seniors, as well as first- and second-year graduate students in the field of psychology. All applicants should demonstrate an interest in aging and ethnic minority research.

Deadline: March 15, 2003 (Applications available on the Minority Fellowship Program Web site beginning January 1, 2003 or prospective applicant can request an application at the address below.)

Deborah Partridge Wolfe International Fellowship

Amount:

The amount varies, but does not exceed \$1,000.

Purpose:

To provide financial assistance for African-American women undergraduate or graduate students interested in studying abroad.

Eligibility:

Applicant must be an African-American woman student interested in pursuing undergraduate or graduate study abroad. Applicant need not be a member of Zeta Phi Beta Sorority. Funds are also available for foreign students who wish to study in the United States.

Deadlines:

Applications are accepted between September 1 and February 1

Contact:

Zeta Phi Beta Sorority, Inc.
1734 New Hampshire Avenue, NW
Washington, DC 20009
202/387-3103

**Medical College of Pennsylvania Hahnemann University - M. Louise
Carpenter Gloeckner, MD, Summer Research Fellowship**

Amount:

Awards range from \$2,500 for 4-6 weeks.

Eligibility:

Eligible applicants include, but are not restricted to, medical students, physicians and medical professionals, undergraduate students, and post-doctoral candidates who will conduct research on women in medical history.

Deadline:

February 1, 2003

White House Fellowship Program

Amount:

No Listing

Eligibility:

Applicant must be a U.S. citizen seeking an opportunity early in his/her career to work for the Federal government. Fellows are drawn from all sectors (Federal employees are ineligible, except for career military personnel of the armed services) and are assigned as assistants to the Vice President, a Cabinet member, or the President's staff. The President's Commission also provides an educational program for the fellows.

Selection Criteria:

Criteria include achievement, intellectual ability, evidence of leadership, and community involvement.

Deadline: November 15

Contact:

President's Commission on White House Fellowships
712 Jackson Place, NW
Washington, DC 20503
202/395-4522

W.K. Kellogg Foundation National Fellowship Program

Amount:

No Listing

Eligibility:

Applicant must be a U.S. citizen who is an outstanding young professional. This program consists of 3-year fellowships to develop leadership skills and abilities across lines of specialization. Activities include a series of seminars on issues and problems facing leaders in domestic and international settings, a self-directed activity intended to broaden the fellow's perspectives about a human issue or problem, and the development of interpersonal skills, which can be directed towards seeking solutions to societal problems.

Deadline:

Acceptance period is August 1 through December 15

Graduate/Post-Graduate

American Association of University Women (AAUW) International Fellowships

Amount:

Stipend of \$18,000 to \$30,000

Eligibility:

Program is for women (non-U.S. citizens or non-permanent residents) who are conducting full-time graduate or postgraduate study or research in the United States. Applicant must have received a bachelor's degree before December 1, 1996, and show outstanding academic ability. Applicants are judged on their professional potential and the importance of their studies to women and girls in the country of origin.

Deadline:

December 15

Center for Women in Government and Civil Society Fellowship on Women and Public Policy

Amount:

\$9,000 stipend is offered; 9 credits of academic course work at Rockefeller College of Public Affairs

Purpose:

To encourage graduate students to pursue careers in public policy while increasing the capacity of the New York State government to address issues of concern to

women, children and families. It is administered by the Center for Women in Government and Civil Society, a unit of the Rockefeller College of Public Affairs and Policy, and University at Albany State University of New York.

Eligibility:

Graduate students from all academic disciplines who are matriculated in colleges and universities in New York State may apply. Applicant should have demonstrated an interest in improving the status of women through research, paid employment, or volunteer activities.

Deadline:

May 15 (Extensions available)

Consortium for Graduate Study in Management Fellowships for Minorities

Amount:

Amounts vary

Purpose:

To assist talented minorities with leadership potential to become members of the managerial ranks of American businesses. We identify future minority managers, challenge them with a high quality graduate management education, and offer them an opportunity to compete for entry-level management positions in corporate America.

Eligibility:

Applicant must be a U.S. citizen who is African American, Hispanic American or Native American to be eligible for consideration. Applicant may apply for admission and fellowship support at the following schools of business: UC-Berkeley, Indiana, Michigan, New York, North Carolina, Rochester, Southern California, Texas, Virginia, Washington, and Wisconsin, and, if accepted, may then proceed to compete for a Consortium Fellowship.

Deadline:

None

Dalmas A. Taylor Memorial Summer Minority Policy Fellowship 2003

Amount:

The summer stipend will be \$3,000 plus housing and travel funds. We will also assist the successful candidate in finding housing in Washington, DC.

Purpose:

To establish an award to honor the memory of Dalmas Taylor. The fellowship will be administered in conjunction with the American Psychological Association's (APA) Minority Fellowship Office, and will provide an opportunity for a graduate student of color to work on public policy issues in Washington, DC.

Eligibility:

Applicant must be a graduate student in good standing who is a member of an ethnic minority group (including, but not limited to, African American, Alaskan Native, American Indian, Hispanic, and Pacific Islander) and/or has demonstrated a commitment to a career in psychology or a related field with a focus on ethnic minority issues.

Deadline:

Applications must reach the SPSSI Central Office by February 1, 2003 for a decision to be announced by the end of the month. The fellowship will begin in June 2003.

National Institute on Alcohol Abuse and Alcoholism Fellowships

Amount:

No Listing

Purpose:

Provide leadership in the national effort to reduce the incidence of alcoholism and alcohol-related health problems. It is a part of the U.S. Department of Health and Human Services, Public Health Service, Substance Abuse and Mental Health Services Administration (SAMHSA).

Eligibility:

Applicant must be a U.S. citizen, non-citizen national or individual who is lawfully admitted to the United States for permanent residence at the time of application. Women and minorities are particularly encouraged to apply. Applicant must be willing to engage in biomedical or behavioral health-related research and/or health-related teaching within 2 years after termination of the fellowship.

Application Details:

The formal application is composed of two parts: Part 1 is to be completed by applicant, and part 2 is to be completed by the sponsor and sponsoring institution officials. Both parts must be submitted together.

Deadlines:

April 5, August 5, December 5

Organization of American States (OAS)

Amount:

Roundtrip ticket; tuition fees, study materials, health insurance, and subsistence allowance.

Purpose:

To provide advanced study at the graduate level and to conduct research.

Eligibility:

Applicants must hold a university degree and be a citizen or permanent resident of an Organization of American States member nation.

Academic Requirement:

Applicant must know the language of the host country. There are two types of fellowships: 1) for advanced study at the graduate level, and 2) for research. Fellowships are granted for periods over 3 months, but not more than 3 years. Fellowships are tenable in any of the member countries of the OAS with the exception of the country in which the candidate is a citizen or a permanent resident. Fellowships are not awarded for medical science studies and related areas, or introductory language studies.

The Rotary Foundation Grants for University Teachers

Amount:

Provide a flat grant of \$10,000 for 3-5 months of service or \$20,000 for 6-10 months of service. Recipients are expected to teach in an economically under-developed country.

Purpose:

To promote international understanding and development through advanced education in developing countries. The program also aims to establish ties between educational institutions, leading to the exchange of ideas and information across the globe.

Eligibility:

- Applicants must hold (or if retired, have held) a full-time college or university appointment for 3 or more years, but need not hold (or have held) a specific rank.
- The subject(s) taught must have practical use to the host country.
- The applicant's home and host countries must contain at least one Rotary Club.
- The proposed host institution must be located in an economically under-developed country.
- Applicants must be proficient in the language of their prospective host country.
- Applicants may be either Rotarians or non-Rotarians.
- Awards are not restricted by gender, age, or marital status.

Deadline:

Application deadlines are set by individual Rotary clubs in accordance with the district deadline. Club deadlines may be as early as March or as late as August of the year preceding study abroad.

Pre-Doctoral

**American Psychological Association Minority Fellowship Program
 Neuroscience Fellowship**

Amount: An average of \$18,156 is awarded.

Purpose: The Minority Fellowship Program's (MFP) objective is to increase the knowledge of issues related to ethnic minority mental health and to improve the

quality of mental health treatment delivered to ethnic minority populations. We do this by providing financial support and professional guidance to individuals pursuing doctoral degrees in psychology. The Neuroscience Fellowship provides financial support for a period of up to 3 years. Also it provides travel funds for the following: to visit universities being considered for graduate training, to attend the Society for Neuroscience annual meeting, and to attend the Summer Program in Neuroscience, Ethics, and Survival (SPINES) at the Marine Biological Laboratory in Woods Hole, MA

Eligibility: The applicant must be an American citizen or permanent resident, and enrolled full time in a doctoral program at the time the fellowship is awarded. An important goal of the program is to increase representation of Black/African American, Alaskan Native, American Indian, Asian American, Hispanic/Latino, and Pacific Islander students within neuroscience. However, the program welcomes applications from all students.

Deadline: November 30, 2003

Howard Hughes Pre-doctoral Fellowships in Biological Sciences

Amount:

The annual stipend is \$21,000—the annual fellow’s allowance is \$2,500 (which can be used for health insurance, health-care expenses, books and supplies, journal subscriptions, a computer and computer-related expenses, travel to scientific meetings, professional fees or dues, tuition for special summer courses, or secretarial or clerical services relevant to the program of study or other purposes relevant to a fellow’s study). The annual institutional allowance is \$13,500.

Purpose:

To promote excellence in biomedical research by helping prospective researchers with exceptional promise to obtain high quality graduate education.

Eligibility:

At the beginning of the fall 2002 term, applicants must not have completed 1 academic year or more of postbaccalaureate graduate study in the biological sciences, whether or not that study was toward a master’s or doctoral degree or was outside of a degree program.

Deadlines:

November 12-14 (12th—last name begins with A to H, 13th—last name begins with I to P, 14th—last name begins with Q to Z). Applications are submitted online only, see Web site listed below.

National Research Council Ford Foundation Pre-doctoral and Dissertation Fellowships for Minorities

Amount:

Each pre-doctoral fellowship will include a stipend of \$16,000 plus \$7,500 in lieu of tuition and fees. Dissertation fellowships will receive a stipend of \$24,000.

Purpose:

To increase the presence of underrepresented minorities on the nation's college and university faculties. The Foundation offers doctoral fellowships to members of 6 minority groups whose underrepresentation in the professorate has been severe and longstanding. The Pre-doctoral Fellowship offers support for 3 years in research-based programs in social and behavioral sciences, humanities, physical sciences, biological sciences, engineering, and mathematics, or for interdisciplinary programs comprised of two or more eligible disciplines leading to the Doctor of Philosophy (PhD) degree or Doctor of Science (ScD) degree.

Eligibility:

Applicant must be a U.S. citizen and a member of one of the following minority groups: Alaskan Natives, Native American Indians, African Americans, Mexican Americans/Chicanos, Native Pacific Islanders, and Puerto Ricans. Persons already holding a doctorate in a relevant field are not eligible.

Pre-doctoral Fellowship Awards for Minority Students

Amount:

No Listing

Purpose:

To provide up to 5 years of support for research training leading to the PhD or equivalent research degree, the combined MD/PhD degree, or other combined professional doctorate/research PhD degrees in the biomedical or behavioral sciences.

Eligibility:

These fellowships are for well-qualified students from behavioral sciences in the United States. Support is not available for individuals enrolled in medical or other professional schools unless they are enrolled in a combined professional doctorate/PhD degree program in biomedical or behavioral research.

Application Procedure:

The Fellowship Application Kit PHS 416-1 must be used in applying for these awards.

School of American Research (SAR)- Resident Scholar Fellowships

Amount:

Resident scholars are provided with an apartment and office on campus, a stipend of up to \$30,000, a small reference library and library assistance, and other benefits during a 9 month tenure, September 1 through May 31.

Purpose:

To support scholars and those publishing original research that contributes to a better understanding of human culture, evolution, and behavior.

Summary:

Resident Scholar Fellowships are awarded each year by the School of American Research (SAR) to six scholars who have completed their research and analysis and who need time to think and write about topics important to the understanding of humankind. The program supports scholars whose work is broad, synthetic, and interdisciplinary. The applicant's research should promise to yield significant advances in understanding human culture, behavior, history, or evolution. Projects that are narrowly focused geographically and theoretically or that are primarily methodological seldom receive strong consideration. Each year the program supports a mix of scholars with scientific and humanistic orientations. Preference is given to applicants whose fieldwork or basic research and analysis are complete and who need time to write manuscripts. The fellowships are not intended as post-doctoral positions, and dissertation rewrites are not encouraged. An average of one pre-doctoral fellowship is awarded each year, and each year's class of fellows may include scholars at various stages of their careers. Three types of fellowships are available:

1. National Endowment for the Humanities Fellowship: Up to three positions are offered to scholars who hold a PhD at the time of application and whose work falls within the humanities. These fellowships are subject to availability of funding.
2. Weatherhead Fellowships: Two positions are available for either pre- or post-doctoral scholars whose work is either humanistic or scientific in nature.
3. Katrin H. Lamon Fellowship: This position is open to a Native American Scholar, either pre- or post-doctoral.

Deadline:

November 15, awards are announced in March.

Smithsonian Research Fellowships**Amount:**

Stipends are determined by the recipient's educational status.

Purpose:

To support independent research in residence at the Smithsonian. Awards for pre- and post-doctoral work are 6-12 months; senior post-doctoral, 3-12 months; graduate, 10 weeks. Fellowships are awarded in the fields of history of science/technology, social/cultural history, history of art, anthropology, biological or earth sciences, and materials analysis.

Eligibility:

Open to all qualified individuals regardless of race, color, religion, sex, national origin, age, or handicapping condition.

Doctoral

American Psychological Association (APA) Minority Fellowship Program (MFP) Aging Training Traineeship

Amount:

The traineeship is an annual award that may be extended for a maximum of 2 years. The amounts vary, depending on Federal allocations to MFP and on the cost-sharing arrangements that MFP negotiates with the universities.

Purpose:

To increase the number of ethnic minorities who complete doctoral degrees in psychology, and thus improve the quality of mental health treatment and research issues of concern among ethnic minority populations.

Eligibility:

Applicant must be a U.S. citizen or permanent visa resident and member of an ethnic minority group, including but not limited to: African American, Alaskan Native, American Indian, Hispanic, Asian American/Pacific Islander and/or demonstrate a commitment to a career in psychology related to ethnic minority mental health. Also the applicant must be enrolled in a full-time academic program leading to a doctoral degree in psychology with a specialty in gerontology by the time a traineeship is awarded.

American Psychological Association Minority Fellowship Program Mental Health and Substance Abuse Services Fellowship

Amount: Not listed

Purpose: The Minority Fellowship Program's (MFP) objective is to increase the knowledge of issues related to ethnic minority mental health and to improve the quality of mental health treatment delivered to ethnic minority populations. We do this by providing financial support and professional guidance to individuals pursuing doctoral degrees in psychology.

This fellowship is a Federally-funded program to support doctoral training in mental health and substance abuse services:

- To promote culturally competent mental health and substance abuse services provided to ethnic minority populations.
- To increase the number of ethnic minority psychologists delivering mental health and substance abuse services to ethnic minority populations.
- To increase the general knowledge and research of issues related to ethnic minority mental health and substance abuse treatment.

Eligibility: Applicants must meet the following criteria:

- American citizens or permanent resident aliens with an alien registration card (I-151 or I-551). Individuals on temporary or student visas are not eligible.
- Demonstrate a strong commitment to a career in ethnic minority mental health and substance abuse services. This commitment must be demonstrated in the application essays, graduate school curriculum or training plan, practicum and internship training experiences, and thesis and dissertation topics developed.
- Applicants should be enrolled fulltime in an APA-accredited doctoral program. Students not currently enrolled in an APA-accredited doctoral program may apply as long as they gain acceptance into an APA-accredited doctoral program for the fall term immediately following the application deadline.
- African American, Alaskan Native, American Indian, Asian American, Hispanic/Latino, Native Hawaiian, and Pacific Islander students are especially encouraged to apply.
- This fellowship is aimed at students specializing in clinical, counseling, school, or other programs associated with the delivery of mental health services.

Deadline: January 15, 2003

Doctoral Fellowships in Social Work for Ethnic Minority Research Relevant to Ethnic Minorities

Amount:

Twenty-four \$10,008 fellowships for 1 year, renewable up to 3 years, are offered.

Purpose:

To increase the number of ethnic minority mental health researchers and to contribute to the systematic development of knowledge regarding ethnic minority research in social work.

Eligibility:

Applicant must be a U.S. citizen or have permanent resident status. Eligibility includes but is not limited to persons who are American Indian/Alaskan Native, Asian/Pacific Islander, African American or Hispanic.

Academic Requirements:

Program is open to applicants who have degrees in social work or who are currently enrolled full-time in a doctoral social work program.

Deadline:

February 28

Doctoral Fellowships in Social Work for Ethnic Minority Students Preparing for Leadership Roles in Mental Health and/or Substance Abuse

Amount:

The fellowship provides monthly stipends for a 1-year period to help defray living expenses. Some tuition support may be provided depending on availability of funds. Award is renewable for up to 3 years if satisfactory progress is maintained and funds are available.

Purpose:

To equip ethnic minority individuals to provide leadership, teaching, consultation, training, policy development, and administration in mental health and/or substance abuse programs. Also the fellowship recipient can enhance the development and dissemination of knowledge requisite for the provision of relevant clinical and social services to ethnic minority individuals and communities.

Eligibility:

Applicant must be a U.S. citizen or have permanent residence status, including, but not limited to, persons who are American Indian/Alaskan Native, Asian/Pacific Islander, African-American and Hispanic. This program is open to students who have a master's degree in social work and who will begin full-time study leading to a doctoral degree in social work or who are currently enrolled as full-time students in a doctoral social work program. Applicants should demonstrate potential for success in doctoral studies, and commitment to a career in providing mental health and/or substance abuse services to ethnic minority clients and communities.

Doctoral Fellowships in Social Work for Ethnic Minority Students Specializing in Mental Health Research

Amount:

The fellowship provides monthly stipends for up to 3 years depending on progress. The fellowship uses the NIH tuition formula to provide some tuition support, if needed.

Purpose:

To educate leaders of the nation's next generation of mental health researchers. The specific purpose of the Mental Health Minority Research Fellowship Program is to ensure that minority investigators assume a prominent position among these researchers. The Mental Health Minority Research Fellowship Program is designed to produce social workers that will undertake active, productive careers in scientific investigations related to mental health and mental illness.

Eligibility:

Applicants for the Mental Health Minority Research Fellowship Program Award must be U.S. citizens or have permanent residence status, including, but not limited to, persons who are American Indian/Alaskan Native, Asian/Pacific Islander, African-American, and Hispanic. This program is open to students who have a master's degree in social work and will begin full-time study leading to a doctoral degree in

social work or are currently enrolled as full-time students in a doctoral social work program. Applicants should demonstrate potential and interest in mental health research, potential for success in doctoral studies, and commitment to a career in mental health research.

Educational Testing Service (ETS) Summer Program in Research for Graduate Students

Amount:

Each graduate intern will receive \$4,000 for the internship period. Interns will be reimbursed for limited round-trip travel from their university to Princeton, consistent with the Educational Testing Service travel policy.

Purpose:

To attract women and minority graduate students to the field of education and related disciplines.

Eligibility:

Applicant must be a graduate student who has completed 1 year of full-time graduate study in a doctoral program emphasizing psychometrics, cognitive psychology, educational psychology, statistics, higher education, technology, occupational vocational testing, language assessment, minority issues, testing issues, or policy studies. Preference is given to women and minority candidates. The main criteria for selection will be scholarship and the match of applicant interests with participating ETS researchers. ETS affirmative action goals will be considered.

Duration:

For 2 months, participants work under the supervision of ETS scientists.

National Institute on Drug Abuse (NIDA) Individual National Research Service Awards

Amount:

The average amount is \$8,000 for pre-doctoral level: between \$18,000 and \$32,300 for post-doctoral, depending upon years of experience.

Eligibility:

Applicant must be a U.S. citizen, non-citizen national, or an individual who is lawfully admitted into the United States for permanent residence at the time of application. The applicant must be willing to engage in biomedical or behavioral health-related research and/or health-related teaching within 2 years after termination of the award.

Selection Criteria:

The applicant's academic records, honors received, research and/or clinical experience, publications, references, and training and career goals will be considered.

Application Details:

Formal applications are composed of two parts (part 1 to be completed by applicant; part 2 by the sponsor and sponsoring institution officials). Applicant must use Form PHS 416-1; no other forms will be accepted.

The Rotary Foundation World Peace Scholars

Amount:

The Rotary World Peace Scholarship will support a Rotary World Peace Scholar for a 2-year master's-level degree program at one of the Rotary Centers for International Studies. The Scholarship will include funding for the following categories: tuition and required fees, room and board, transportation, contingency expenses.

Other Funding for degree-related projects undertaken by scholars between the first and second years of study, such as internships, volunteer work, and research, will be available but must be applied for during the scholarship period.

Purpose:

To offer individuals committed to peace and cooperation the opportunity to pursue a 2-year master's level degree in international studies, peace studies, and conflict resolution at one of the seven Rotary Centers.

Eligibility:

Applicants for the Rotary World Peace Scholarships must have the following:

- The academic background, training, and work experience required for a master's level program at the partner universities.
- Proficiency in more than one language (even if they propose to study in a country where their native language is spoken).
- Excellent leadership skills.
- A demonstrated commitment to peace and international understanding through their personal and community service activities and/or academic and professional achievements.
- Citizenship in a country in which there is a Rotary Club.

Ineligible:

- Rotarian; Honorary Rotarians;
- Employees of a club, district, or other Rotary entity or of Rotary International;
- Spouses, lineal descendants (child or grandchild by blood or legal adoption), spouses of lineal descendants, or ancestors (parent or grandparent by blood) of any living person in the first two categories; and
- Former Rotarians and their relatives as described above within 36 months of resignation.

Deadline:

Applications generally need to be completed approximately 18 months in advance of the planned study period. Applications are available from the Rotary Web site listed below. Club deadlines may be as early as March or as late as August of the year prior to the study period.

Williams College-Gaius Charles Bolin Fellowships for Minority Graduate Students

Amount:

The stipend for 2003-2004 is \$27,500. The college will also provide housing assistance, academic support including office space and computer library privileges, and an allowance of up to \$4,000 for expenses.

Purpose:

To encourage minority students to pursue careers in college teaching. The Bolin Fellowships enable two minority graduate students to devote the bulk of their time during the academic year to the completion of dissertation work.

Eligibility:

Applicants must be U.S. citizens and have completed all doctoral work except the dissertation by the end of the current academic year. During the year of residence at Williams, the Bolin Fellows will be assigned faculty advisors and will be expected to teach a one-semester course.

American Association of University Women (AAUW) Fellowships

Amount:

Post-doctoral fellowships of \$30,000 are offered. Dissertation fellowships of \$20,000 each are offered. Summer fellowships of \$5,000 are offered.

Eligibility:

Applicant must be a U.S. citizen or permanent resident of the United States. There are no restrictions on place of study or age. Open to scholars in any field of study.

Academic Requirements:

A post-doctoral fellowship candidate must hold a doctoral degree at the time of application. Dissertation fellowships are for women who are in the final year of writing their dissertation. Applicant must have successfully completed all required course work, passed all preliminary examinations, and have the dissertation research proposal approved by November 15, year of application.

Selection Criteria:

Selection is based primarily on scholarly excellence of applicant's proposal and commitment to helping women through service in their community, profession, and/or field of research.

Deadlines:

November 15, fellowship year starts July 1.

Applications are available from August 1 to November 1.

Applicant may apply twice for fellowship regardless if dissertation is the same topic.

**American Psychological Association (APA) and the American Psychological
Foundation (APF) Educational Assessment Congressional Fellowship**

Amount: Fellowship stipend ranges from \$48,500 to \$64,400 depending on years of post-doctoral experience.

Purpose: To provide psychologists with an interest in educational assessment, testing, and related issues with an invaluable public policy learning experience, to contribute to the more effective use of psychological knowledge in government. Also, the experience will broaden awareness about the value of psychology-government interaction among psychologists and within the Federal government. Fellows will spend 1 year working as a special legislative assistant on the staff of a member of Congress or a congressional committee. Activities may involve conducting legislative or oversight work, assisting in congressional hearings and debates, and preparing briefs and writing speeches. Fellows also attend an orientation program on congressional and executive branch operations, which includes guidance in the congressional placement process, and a yearlong seminar series on science and public policy issues.

Eligibility: A prospective fellow must be a member of APA (or an applicant for membership) and have a doctorate in psychology at the time of application, with a minimum of 2 years post-doctoral experience preferred. He/she must demonstrate competence in scientific and/or professional psychology and an interest in educational assessment, testing, and related issues. Fellows must also demonstrate sensitivity toward policy issues and have a strong interest in applying psychological knowledge to the solution of societal problems. Fellows must be able to work quickly and communicate effectively with individuals having diverse viewpoints.

Deadline: January 1, 2003 (fellowship begins September 2, 2003 for the 2003-04 fellowship year)

The following materials are required in the application package:

- A detailed curriculum vitae providing information about educational background, professional employment and activities, professional publications and presentations, public policy and legislative experience, and committee and advisory group appointments.
- A statement of approximately 1000 words addressing the applicant's interests in the Fellowship, career goals, contributions the applicant believes he or she can make as a psychologist to the legislative process, and what the applicant wants to learn from the experience.
- Three letters of reference specifically addressing the applicant's ability to work on Capitol Hill as a special legislative assistant.

**American Psychological Association Minority Fellowship Program
Mental Health and Substance Abuse Services Post-Doctoral Fellowship**

Amount: \$28,260

Purpose: The Minority Fellowship Program's (MFP) objective is to increase the knowledge of issues related to ethnic minority mental health and to improve the quality of mental health treatment delivered to ethnic minority populations. We do this by providing financial support and professional guidance to individuals pursuing doctoral degrees in psychology.

The purpose of the MFP Postdoctoral Training Program is to expand mental health services research in underserved ethnic minority persons with mental health and substance abuse issues and to support the postdoctoral training of ethnic minorities. This fellowship is designed to enable ethnic minority investigators to undertake active, productive careers in research related to mental health; mental illness; and substance prevention, treatment, and abuse. Furthermore, our goal is to expose ethnic minority scientists to state-of-the-art research and cutting-edge science, and to strengthen their commitment to research in their chosen specialty area.

Postdoctoral Fellows are appointed to full-time positions for one year, with the possibility of renewal for a second year pending availability of funds from the Substance Abuse and Mental Health Services Administration (SAMHSA), and evidence of research productivity. All trainees are required to pursue their research training on a full-time basis, at a minimum of forty (40) hours per week.

Eligibility: Applicants must meet the following criteria:

- U.S. citizens or non-citizen nationals of the United States, or have been lawfully admitted to the United States for permanent residence and have an Alien Registration Receipt Card (I-151 or I-551) or other legal verification of admission for permanent residence at the time of appointment to the MFP Postdoctoral Training Program. Individuals on temporary or student visas are not eligible.
- Must have received a PhD or equivalent doctoral degree from an accredited domestic or foreign institution. Certification by an authorized official of the

degree granting institution that all degree requirements have been met is also acceptable. Individuals currently supported by other Federal funds are not eligible for trainee support from this program at the same time.

- An applicant must provide substantive proof that his or her application for the Postdoctoral Fellowship is supported by an *established* researcher (sponsor).
- Trainees must be African American/Black, American Indian or Alaskan Native, Asian or Pacific Islander, or Latino/Hispanic; and/or committed to careers that focus primarily on ethnic minority mental health and substance abuse services.

American Psychological Association Minority Fellowship Program Mental Health Research Fellowships

Amount: Not listed

Purpose: The Minority Fellowship Program's (MFP) objective is to increase the knowledge of issues related to ethnic minority mental health and to improve the quality of mental health treatment delivered to ethnic minority populations. We do this by providing financial support and professional guidance to individuals pursuing doctoral degrees in psychology.

The Mental Health Research (MHR) fellowships support the training of students who have primary interests in research related to the mental health or the psychological well being of ethnic minorities. In addition, applicants must have primary career goals of becoming independent research scientists or psychologists who work primarily in university settings. The MHR program also has two sub-specialties-- HIV/AIDS and substance abuse. Applicants interested in HIV/AIDS research as a specialty should use the HIV/AIDS application. Applicants interested in the substance abuse specialty should clearly indicate so in their application cover letter and application essays. Contact the Minority Fellowship Program office for more details.

Eligibility: Applicants must meet the following criteria:

- U.S. citizens or non-citizen nationals of the United States, or have been lawfully admitted to the United States for permanent residence and have an Alien Registration Receipt Card (I-151 or I-551) or other legal verification of admission for permanent residence at the time of appointment to the MFP Postdoctoral Training Program. Individuals on temporary or student visas are not eligible.
- Applicants must demonstrate a strong commitment to a career in mental health research related to ethnic minorities. This commitment must be demonstrated in the application essays, graduate school curriculum or training plan, practicum and internship training experiences, and thesis and dissertation topics developed.
- Applicants should be enrolled full-time in a doctoral program. Students not currently enrolled in a doctoral program may apply as long as they gain acceptance into a doctoral program for the fall term immediately following the application deadline.
- African American, Alaskan Native, American Indian, Asian American, Hispanic/Latino, Native Hawaiian, and Pacific Islander students are especially encouraged to apply. Students from the complete range of psychology disciplines

are encouraged to apply so long as their **training and research interests are related to mental health**. Clinical, counseling, and school psychology students should first consider the MFP MHSAS program

National Institute of General Medical Sciences/National Institutes of Health Post-doctoral Fellowship Award

Amount:

No Listing

Academic Requirements:

For eligible individuals who seek post-doctoral biomedical research training in areas related to the scientific program of the Institute. Applicant must have received the doctoral degree (PhD, ScD, Deng, MD, DDS, DO, DVM, OD, DNS or equivalent) by the beginning date of the proposed award.

Selection Criteria:

Applicant's proposed study must include the conduct of research with supervision or other opportunity for guidance appropriate to his or her background and objectives. Prior to submitting an application, an applicant must arrange for acceptance at an appropriate training institution by a responsible sponsor. The institutional setting may be domestic or foreign, private or public. The application must document the availability of staff and facilities required for the proposed research and for accomplishing the applicant's training objectives. Recipients are [limited to a](#)

[maximum of 3 years](#) of any NRSA post-doctoral support. NIGMS policy is to provide support for 3 years minus any time that the fellow has already spent in the sponsor's laboratory at the time of the award.

Application Details:

Fellowship application PHS 416-1 should be used when applying.

Deadline:

April 5, August 5, December 5

National Research Council Ford Foundation Post-doctoral Fellowships for Minorities

Amount:

Funding includes a \$35,000 stipend as well as \$3,000 travel and relocation allowance, \$2,000 cost-of-research allowance, and \$2,500 employing institution allowance.

Purpose:

To identify outstanding researchers and scholars who are members of minority groups whose underrepresentation has been severe and longstanding in the professorate and in formal programs of post-doctoral study and research in the United States. The program enables them to engage in a year of post-doctoral research and scholarship in an environment free from the interference of their normal professional duties.

Eligibility:

Applicant must be a U.S. citizen at the time of application and a member of one of the following minority groups: Native American Indian, Alaskan Native, African American, Mexican American, Native Pacific Islander, or Puerto Rican. Applicant is required to have earned the PhD or ScD degree no earlier than January 3, 1995 and no later than February 14, 2002. Awards will be made in the behavioral and social sciences, humanities, engineering, mathematics, physical sciences, and life sciences or for interdisciplinary programs composed of two or more eligible disciplines.

Deadline:

January 7

National Research Service Awards for Individual Post-doctoral Fellows

Amount:

Stipends are issued based on the number of years of relevant post-doctoral experience at the time the award is issued.

Purpose:

To help ensure that highly trained scientists are available in adequate numbers and in appropriate research areas to carry out the nation's biomedical and behavioral research agenda.

Eligibility:

Individuals must be citizens or non-citizen nationals of the United States for permanent residence; must have received a PhD, MD, DO, DDS, DVM, OD, DPM, ScD, EngD, DrPH, DNS, PharmD, DSW, PsyD, or equivalent doctoral degree; and must arrange for appointment to an appropriate institution and acceptance by a sponsor who will supervise the training and research experience.

Deadlines:

August 5, December 5, and April 5

National Science Foundation Minority Post-Doctoral Research Fellowships

Amount: Award is \$50,000 per year for 2 years (payable as \$36,000 stipend paid to the Fellow, \$9,000 as a research allowance, and \$5,000 as an institutional allowance for fringe benefits including health insurance).

Purpose: Through the National Science Foundation's Directorate for Social, Behavioral and Economic Sciences (SBE), the fellowship is an effort to increase the participation of underrepresented groups in selected areas of science in the United States. The fellowships support training and research at the post-doctoral level in a host institution in the areas of social, behavioral, and economic sciences (including history and philosophy of science) supported by NSF.

Eligibility: Applicants must be U.S. citizens, nationals, or lawfully admitted permanent residents and recipients of the doctoral degree within the past 4 years. At the conclusion of the Fellowship, fellows are eligible to apply for a research start-up grant (up to \$50,000).

Deadline: December 2, 2002 (each year, the first Monday in December)

Smithsonian Research Fellowships

Amount:

Stipends are determined by the recipient's educational status.

Purpose:

To support independent research in residence at the Smithsonian. Awards for pre- and post-doctoral work are 6-12 months; senior post-doctoral, 3-12 months; and

graduate 10 weeks. Fellowships are awarded in the fields of history of science/technology, social/cultural history, history of art, anthropology, biological or earth sciences, and materials analysis.

Eligibility:

Open to all qualified individuals regardless of race, color, religion, sex, national origin, age, or handicapping condition.

Women

Alpha Kappa Alpha Sorority, Inc. - Eva L. Evans Mathematics and Science Fellowship

Amount:

No listing

Purpose:

To promote lifelong learning by securing charitable contributions, gifts and endowed funds to award scholarships, fellowships and grants.

Eligibility:

Awarded to students who have completed at least 2 years of higher education, for research in mathematics, science, or technology, and alternatives to violence. Awards are given to individuals without regard to gender, race, religion, or ethnicity.

Deadline:

February 15, 2003

To receive an application, send a request to the Foundation. Your letter of request must include the name of the institution you are currently attending (for undergraduates) and your current classification. Include a stamped self-addressed business size envelope and mail your request to the contact information below. This request should be dated no earlier than November 15, 2002. All applications will be mailed on December 1, 2002. The final date for requesting an application is January 29, 2003. Applications will only be mailed to those students who provide their classification.

**American Association of University Women (AAUW)
American Fellowships-Post-doctoral Research Leave Fellowship**

Amount:

One year of support in the amount of \$30,000. Limited additional funds may be available when matched by the fellow's institution.

Purpose:

To support women doctoral candidates completing dissertations or scholars seeking funds for post-doctoral research leave from accredited institutions. In all, 20 post-doctoral fellowships are available in the arts and humanities, social sciences, and natural sciences; one is designated for a woman from an underrepresented group in any field.

Eligibility:

Applicant must be a U.S. citizen or permanent resident. Candidates are evaluated on the basis of scholarly excellence, teaching experience, communities, professions, or fields of research.

Fellowship Year:

July 1, 2003 to June 30, 2004

**American Association of University Women (AAUW)
American Fellowships-Dissertation Fellowships**

Amount:

\$20,000

Purpose:

To support women doctoral candidates completing dissertations or scholars seeking funds for post-doctoral research leave from accredited institutions. Fifty-one fellowships are available to women who will complete their dissertation writing between July 1, 2003 and June 30, 2004.

Eligibility:

Applicants must be a U.S. citizen or permanent resident. To qualify, applicants must have completed all course work, passed all required preliminary examinations, and received approval for their research proposals or plan by November 15, 2002. Open to applicants in all fields of study, except engineering. Scholars engaged in researching gender issues are encouraged to apply.

**American Association of University Women (AAUW)
Eleanor Roosevelt Teacher Fellowships-Professional Development
Fellowships**

Amount:

K-12 public school teachers will be awarded \$5,000 for professional development workshops or conferences, seed money to plan gender-equity school-based programs, and cover teacher's attendance at the five-day Eleanor Roosevelt Teacher Institute in July 2003 in Washington, DC. Additional support is available for a colleague to attend the Teacher Institute.

Purpose:

To provide professional development opportunities for women public school teachers; improve girls' learning opportunities, especially in math, science, and technology; and promote equity and long term change in classrooms, schools, and school systems.

Eligibility:

Applicant must be a U.S. citizen or permanent resident who has taught for at least 3 years, is committed to teaching beyond the fellowship year. The Foundation especially encourages applications from women of color and others from underrepresented groups, as well as those who teach underserved students.

**American Association of University Women (AAUW) Selected Professions
Fellowships**

Amount:

Master's/First Professional Awards: \$5,000-12,000
Engineering Dissertation Awards: \$20,000

Purpose:

To support women who intend to pursue a full-time course of study at accredited institutions during the fellowship year in one of the designated degree programs where women's participation traditionally has been low.

Eligibility:

Applicant must be a U.S. citizen or permanent resident.

Selected Professions Fellowships are awarded for the following programs:

- Architecture (MArch, MSArch)
- Computer/Information Sciences (MS)
- Engineering (ME, MS, PhD)
- Mathematics/Statistics (MS)

Fellowships in the following degree programs are restricted to women of color, who have been under-represented in these fields:

- Business Administration (MBA, EMBA)
- Law (JD)
- Medicine (MD, OD)

Deadline:

Master's/First Professional Awards (postmark application deadline January 10, 2003)
Application available (August 1 - December 20, 2002)

Engineering Dissertation Awards (postmark application deadline November 15, 2002)

American Association of University Women (AAUW) International Fellowships

Amount:

Master's First Professional Fellowship: \$18,000
Doctorate Fellowship: \$20,000
Post-doctoral Fellowship: \$30,000

The Foundation also awards several annual Home County Project Grants (\$5,000 to \$7,000 each) to women who received International Fellowships from 1999 to 2003. These grants support community-based projects designed to improve the lives of women and girls in the fellow's home country.

Purpose:

Grants awarded for full-time study or research to women who are not U.S. citizens or permanent residents. Both graduate and postgraduate study at accredited institutions are supported.

Eligibility:

Applicants must have earned the equivalent of a U.S. bachelor's degree by December 31, 2002, and must have applied to their proposed institution of study to improve the lives of women and girls in the country of origin. Preference is given to women residing in their home countries at the time of application.

Other Financial Aid Opportunities

Undergraduate

The Applied Social Issues Internship Program

Amount:

The amount ranges from \$300 to \$2,500.

Purpose:

To encourage research that is conducted in cooperation with a community or government organization, public interest group or other not-for-profit entity that will benefit directly from the project. If an intervention is planned, the proposal should carefully describe the theoretical rationale for the intervention, specifically how the effectiveness of the program will be assessed and the plan to disseminate the findings to relevant parties and policymakers.

Eligibility:

College seniors, graduate students, and first-year post-doctorates in psychology, applied social science, and related disciplines are eligible.

Deadlines:

Applications must be received by November 15 for awards announced in January and by May 15 for awards announced in June.

The Audre Lorde Scholarship Fund

The Joan P. Garner Award
The Kelley D. Alexander Award
The Mary Anne Adams Award
The Ruth C. Ellis Award
The Tony Daniels Community Ally Award

Amount:

\$1,000 for the 2003-04 academic year

Purpose:

These scholarships are designed to recognize out (defined as an acknowledgement of lesbian or gay identity to self, and/or to family, friends, and community) lesbians and gay men of African descent who are making significant contributions to their communities and support and encourage their continuance of education.

Eligibility:

- An out lesbian or gay man of African descent who is a graduating high school senior or currently attending any technical or undergraduate school located in the United States.
- Accepted or registered at a post-secondary educational institution for full or part-time attendance as defined by the institution.
- Cumulative high school/college/or technical school grade point average of 2.5 or higher.
- Lesbians and gay men 40 years plus are strongly encouraged to apply.

Requirements:

- Submit official/unofficial up-to-date academic transcript(s). Applicant may send transcripts only from recent school(s), provided two semesters of study are included.
- College or university acceptance letter if applicant is an incoming freshman.
- Completed Audre Lorde Scholarship Fund application.
- A 2-3 page typed statement of purpose.
- Two letters of recommendations from a teacher, mentor, employer or activist/organizer in the lesbian and gay community.
- A photo (head shot) any size, black/white or color, which may be used at the announcement of the award.
- The Audre Lorde Scholarship Fund presents the award at a ceremony at ZAMI, Inc. during the last weekend of September (recipients' travel expenses are paid by the Audre Lorde Scholarship Fund).

The Henry A. Murray Dissertation Award Program

Amount:

Three \$5,000 grants are offered.

Eligibility:

Applicant must be a graduate student doing research in the social and behavioral sciences. The goal of the program is to support research that best embodies Henry A. Murray's commitment to the in-depth study of individuals in context, over time, and from a variety of perspectives.

Academic Requirements:

Projects should focus on some aspect of the "study of lives," including issues in human development and personality.

Selection Criteria:

Priority will be given to projects drawing on the resources of the Murray Research Center, but this is not a requirement for applying.

Application Details:

Proposals (6 copies) should include a cover page giving applicant's name, affiliation, and the title of the proposed project. The body of the proposal should present a description of the research to be undertaken, including brief statements of background, significance and rationale of the project. A proposed timetable should be included.

Deadline:

April 1

The Louise Kidder Early Career Award 2002

Amount:

Winners will receive \$500 and a plaque.

Purpose:

To recognize researchers who focus on social issues and who have made substantial contributions to the field early in their careers, the Society for the Psychological Study of Social Issues (SPSSI) Council has established this new award. In contrast to SPSSI's other awards, this award is named for a living person—Louise Kidder— in honor of her own early career accomplishments and contributions to SPSSI.

Eligibility:

Nominees should be investigators who have made substantial contributions to social issues research within 5 years of receiving a graduate degree and who have demonstrated the potential to continue such contributions. Nominees need not be current SPSSI members.

Deadline:

Applications must be received by May 1, 2003

Robert S. and Grace W. Stone Primary Prevention Initiatives Grant Program Awards

Amount: Up to five individual dissertation awards ranging from \$2,500 to \$5,000 per year for up to 2 years will be granted, and up to five research grants ranging from \$2,500 to \$50,000 per year for up to 3 years will be awarded.

Purpose: To support research and evaluation that advances understanding of the role of relationships in fostering child and adolescent wellbeing and healthy human development. Proposals for research grounded in Relational-Cultural Theory are particularly encouraged, as are those that give particular attention to the ways findings can be used programmatically to help children. The Stone Center, part of the Wellesley Centers for Women at Wellesley College is sponsoring the Robert S. and

Grace W. Stone Primary Prevention Initiatives Grant Program: Empowering Children for Life.

Eligibility: Dissertation Awards: open to students enrolled in an accredited graduate program at a U.S. university and working toward a PhD, EdD, or PsyD. Proof of student status and two faculty recommendations must be submitted with the application, which must be for work on an approved dissertation topic. (Indirect costs not included.)

Research Grants: awarded to researchers (PhD or equivalent) who are based at universities and/or not-for-profit research institutions in the United States. Research grants will be awarded to the institution, not to individuals. (Indirect costs up to 15% of the total budget are allowed.) Researchers from universities or research institutions in the U.S., including researchers from the Wellesley Centers for Women are eligible to apply.

Application Details: The original full proposal should be submitted with two copies, and must contain the following information:

- 1) Cover page listing the project's title, the names of the investigator(s), the amount of the request, its term (1 to 2 years for Dissertation Awards, 1 to 3 years for Research Grants). Research grant applications must be signed by an authorized institutional official.
- 2) Abstract of the proposal (no more than one page) concisely summarizing each of the items listed under #3 below. The abstract should serve as a succinct and accurate description of the proposed work and should briefly describe the research goals and objectives, research design, and methods for achieving the goals and objectives.
- 3) The full proposal should be no more than 20 double-spaced pages and should:
 - a) State the research question(s) and their justification in a concise manner and include a review of recent literature that locates this specific inquiry in the current relevant empirical, theoretical and/or evaluation literature(s), (e.g., psychology, education, the role of relationships in human development).
 - b) Describe and provide detailed rationale(s) for the proposed research or study design and analytical methodologies, as well as sufficient information to judge the rigor and expertise of the investigator (for instance, a brief description of preliminary studies or previous work on the proposed or related topic conducted by the PI or with which s/he has been involved).
 - c) Articulate the anticipated contribution of this project to the stated purpose of this grant program with particular emphasis on how the proposed work will illuminate those specific aspects of relationships between children and adults that are most conducive to the healthy development of youth.

The following items should be submitted with the proposal as appendices:

- 4) Budget by grant year for all direct and indirect costs. Multiple year proposals should include budgets for each year. Indirect costs may not exceed 15% of total direct costs. This ceiling includes any indirect costs contained in expenses for subgranted or subcontracted services. (Indirect costs may not be submitted for Dissertation Awards.)
- 5) Institutional Review Board approval of the investigator's institution is necessary for all projects involving human subjects. Proposals should indicate how issues of protection of human subjects will be addressed and the intention to seek such approval if the proposal is funded. Such approval must be documented before a grant is fully executed.
- 6) Brief curriculum vitae (no more than three pages) should be included for all principal investigators.

7) Non-profit status should be confirmed by submitting an IRS Tax Determination under the 1969 Tax Reform Act for the institution that will receive a grant.

Research grants are made to organizations or institutions, not individuals.

Deadline: May 2, 2003 (Faxed and/or electronic submissions are not accepted. Applicants are notified in mid-July 2003 about award decisions.)

The Clara Mayo Grants

Amount:

Up to four grants at a maximum of \$1,000 each will be awarded.

Purpose:

To support masters' theses or pre-dissertation research on aspects of sexism, racism, or prejudice, with preference given to students enrolled in a terminal master's program. Studies of the application of theory or the design of interventions or treatments to address these problems are welcome.

Eligibility:

Individuals who are members of the Society for the Psychological Study of Social Issues and who have matriculated in graduate programs in psychology, applied social science, and related disciplines are eligible to apply. A student who is applying to the Grants-in-Aid Program may not apply for the Clara Mayo award in the same fiscal year (July 1 to June 30). Applicants may submit only one Mayo award application per calendar year. (Proposals that include a college or university agreement to match the requested amount will be favored, but proposals without matching funds will also be considered.)

Deadline:

Applications must be received by May 1, 2003. (See the Web site below for more details about applying.)

**Social Science Research Council Urban Underclass Program Summer
Dissertation Workshop**

Amount:

The Council will cover participants' expenses including seminar fees, transportation, and room and board. Students who successfully complete the workshop will receive an additional award of \$750.

Purpose:

To provide training in research design and analysis, qualitative and/or quantitative, and to assist students in developing a research interest or idea into a dissertation proposal in one of the following fields; all social sciences, genetics, nutrition neurobiology and behavior, and environmental toxicology.

Eligibility:

Minority graduate students who are completing at least their second year of graduate study but who have not yet started the actual writing of the dissertation may apply.

Deadline:

December 10

Robert S. and Grace W. Stone Primary Prevention Initiatives Grant Program Awards

Amount: Up to five individual dissertation awards ranging from \$2,500 to \$5,000 per year for up to 2 years will be granted, and up to five research grants ranging from \$2,500 to \$50,000 per year for up to 3 years will be awarded.

Purpose: To support research and evaluation that advances understanding of the role of relationships in fostering child and adolescent wellbeing and healthy human

development. Proposals for research grounded in Relational-Cultural Theory are particularly encouraged, as are those that give particular attention to the ways findings can be used programmatically to help children. The Stone Center, part of the Wellesley Centers for Women at Wellesley College is sponsoring the Robert S. and Grace W. Stone Primary Prevention Initiatives Grant Program: Empowering Children for Life.

Eligibility: Dissertation Awards: open to students enrolled in an accredited graduate program at a U.S. university and working toward a PhD, EdD, or PsyD. Proof of student status and two faculty recommendations must be submitted with the application, which must be for work on an approved dissertation topic. (Indirect costs not included.)

Research Grants: awarded to researchers (PhD or equivalent) who are based at universities and/or not-for-profit research institutions in the United States. Research grants will be awarded to the institution, not to individuals. (Indirect costs up to 15% of the total budget are allowed.) Researchers from universities or research institutions in the U.S., including researchers from the Wellesley Centers for Women are eligible to apply.

Application Details: The original full proposal should be submitted with two copies, and must contain the following information:

- 1) Cover page listing the project's title, the names of the investigator(s), the amount of the request, its term (1 to 2 years for Dissertation Awards, 1 to 3 years for Research Grants). Research grant applications must be signed by an authorized institutional official.
- 2) Abstract of the proposal (no more than one page) concisely summarizing each of the items listed under #3 below. The abstract should serve as a succinct and accurate description of the proposed work and should briefly describe the research goals and objectives, research design, and methods for achieving the goals and objectives.
- 3) The full proposal should be no more than 20 double-spaced pages and should:
 - d) State the research question(s) and their justification in a concise manner and include a review of recent literature that locates this specific inquiry in the current relevant empirical, theoretical and/or evaluation literature(s), (e.g., psychology, education, the role of relationships in human development).
 - e) Describe and provide detailed rationale(s) for the proposed research or study design and analytical methodologies, as well as sufficient information to judge the rigor and expertise of the investigator (for instance, a brief description of preliminary studies or previous work on the proposed or related topic conducted by the PI or with which s/he has been involved).
 - f) Articulate the anticipated contribution of this project to the stated purpose of this grant program with particular emphasis on how the proposed work will illuminate those specific aspects of relationships between children and adults that are most conducive to the healthy development of youth.

The following items should be submitted with the proposal as appendices:

- 4) Budget by grant year for all direct and indirect costs. Multiple year proposals should include budgets for each year. Indirect costs may not exceed 15% of total direct costs. This ceiling includes any indirect costs contained in expenses for subgranted or subcontracted services. (Indirect costs may not be submitted for Dissertation Awards.)
- 5) Institutional Review Board approval of the investigator's institution is necessary for all projects involving human subjects. Proposals should indicate how issues of protection of human subjects will be addressed and the intention to seek such approval if the proposal is funded. Such approval must be documented before a grant is fully executed.

- 6) Brief curriculum vitae (no more than three pages) should be included for all principal investigators.
- 7) Non-profit status should be confirmed by submitting an IRS Tax Determination under the 1969 Tax Reform Act for the institution that will receive a grant. Research grants are made to organizations or institutions, not individuals.

Deadline: May 2, 2003 (Faxed and/or electronic submissions are not accepted. Applicants are notified in mid-July 2003 about award decisions.)

Doctoral

Adolescent and Youth Dissertation Award

Amount:

Up to \$5,000

Purpose:

The goal of the program is to support research on youth and adolescent development. Proposals focusing on "youth as a resource" or positive attributes and strengths of youth are especially encouraged. Projects drawing on the center's data will be given priority, although the use of the center's resources is not a requirement. The program is funded by the W.T. Grant Foundation.

Eligibility:

Any student currently enrolled in a doctoral program in a relevant field is eligible to apply. Dissertation proposals must be approved by an advisor or committee before the grant application is submitted.

Post-Doctoral

The Applied Social Issues Internship Program

Amount:

The amount ranges from \$300 to \$2,500.

Purpose:

To encourage research that is conducted in cooperation with a community or government organization, public interest group or other not-for-profit entity that will benefit directly from the project. If an intervention is planned, the proposal should carefully describe the theoretical rationale for the intervention, specifically how the effectiveness of the program will be assessed and the plan to disseminate the findings to relevant parties and policymakers.

Eligibility:

College seniors, graduate students, and first-year post-doctorates in psychology, applied social science, and related disciplines are eligible.

Deadlines:

Application must be received by November 15 for awards announced in January and by May 15 for awards announced in June.

Educational Testing Service (ETS) National Assessment of Educational Progress (NAEP) Visiting Scholar Program

Amount:

The level of the stipend will be commensurate with the scholar's experience and will supplement any support received from the fellow's home institution. Relocation expenses, consistent with ETS guidelines, will be reimbursed upon presentation of receipts.

Purpose:

To provide research opportunities for scholars to address important educational policy issues or measurement of issues that affects the efficiency or usefulness of NAEP. The goal is to encourage secondary analyses of NAEP data and increase the number of minority professionals in educational measurement and related fields.

Eligibility:

Applicant should hold a doctorate degree in a related discipline and provide evidence of scholarship.

Application Details:

Applicants should send a letter of application along with a current curriculum vita; detailed proposal of the research the applicant will conduct while at ETS (about 5 pages); names, addresses, and telephone numbers of three individuals who are familiar with the applicant's work and are willing to serve as referees.

Jeanne Humphrey Block Dissertation Award

Amount:

One grant of \$5,000 is awarded annually.

Eligibility:

Applicant must be a woman enrolled in a doctoral program in a field relevant to girls' or women's psychological development.

Selection Criteria:

Preference is given to projects that draw upon or contribute to the resources of the Henry A. Murray Research Center of Radcliffe College. Recipient selection is based on the importance of the research question and its potential contribution to the field of study.

Application Details:

Applicant should submit a cover page with her name, affiliation, and title of proposed research. A description of the research to be undertaken, including statement of background, significance, and rationale of the project should be detailed in the body of the proposal. The description may be up to a maximum of six pages, double-spaced. A proposed timetable and budget should also be included.

Alpha Kappa Alpha Sorority, Inc.-Financial Assistance Scholarships

Amount:

The maximum individual award is \$1,500. This is a 1-year award.

Purpose:

To promote lifelong learning by securing charitable contributions, gifts and endowed funds to award scholarships, fellowships and grants.

Eligibility:

Applicant must be a student currently enrolled in an institution of higher education with at least sophomore standing at an accredited degree granting institution or a graduate student currently enrolled or will be a student in the fall of 2002. Applicant can also be a student in a non-institutional based program that may or may not grant degrees. The course of study outline is required for these students and there must be a minimum GPA of 2.5 (C+ average).

Deadline:

February 15, 2003

To receive an application, send a request to the Foundation. Your letter of request must include the name of the institution you are currently attending (for undergraduates) and your current classification. Include a stamped self-addressed business size envelope and mail your request to the contact information below. This request should be dated no earlier than November 15, 2002. All applications will be mailed on December 1, 2002. The final date for requesting an application is January 29, 2003. Applications will only be mailed to those students who provide their classification.

Grants and Special Awards for Institutions

American Psychological Association Science Directorate Grants for Research Conferences in Psychology

Amount: Range from \$500 to \$20,000

Purpose: Grant money ranging from \$500 to \$20,000 is available for the scientific conference. Proposals will be considered using such formats as "add-a-day" conferences (\$500-\$3,000 available), "stand alone" conferences (\$5,000-\$20,000 available), and festschrifts (\$5,000-\$20,000 available). APA is also open to innovative ways of holding conferences. The conference must be additionally supported by the host institution with direct funds, in-kind support, or a combination of the two. (Please note that a detailed budget including institutional support is required for application.)

Eligibility: Conference proposals must meet the following eligibility requirements:

- One of the primary organizers must be a member of APA.
- Only academic institutions accredited by a regional body may apply. Independent research institutions must provide evidence of affiliation with an accredited institution. Joint proposals from cooperating institutions are encouraged.
- Conferences may be held only in the United States, its possessions, or Canada. (APA reserves the right of first refusal for all publications from APA-sponsored conferences and will hold the copyright on such documents. Conferences should take place within approximately 12 months after the funding decision is made.)

Deadline: December 1, 2002

Career Development Award for Minority Scholars in Neuroscience Mental Health Research Education Grants

Amount:

Planning, direction, and execution of the program will be the responsibility of the candidate and her/his mentor on behalf of the applicant institution. Salary up to \$85,000 per year will be provided. The project period may be 3, 4, or 5 years and

will depend upon the number of years of prior research experience, and the need for additional experiences to achieve independence. Awards are not renewable.

Purpose:

To increase the representation of minorities in faculty-level neuroscience positions who are competitively funded to conduct independent research.

Eligibility:

You may submit an application if your institution has any of the following characteristics:

- For-profit or non-profit organization;
- Public or private institution, such as a university, college, hospital, and laboratory;
- Units of State and local government;
- Eligible agency of the Federal government; or
- Domestic.

Deadline:

Applications submitted in response to this program announcement will be accepted at the standard application deadlines, which are available at

<http://grants.nih.gov/grants/dates.htm>.

Applications must be prepared using Section IV of the PHS 398 research grant application instructions and forms. The PHS 398 is available at

<http://grants.nih.gov/grants/funding/phs398/phs398.html> in an interactive format.

Contact:

Submit a signed, typewritten original of the application, including the checklist, and three signed, photocopies, in one package to:

Center For Scientific Review

National Institutes of Health

6701 Rockledge Drive, Room 1040, MSC 7710

Bethesda, MD 20817 (for express/courier service)

European Association of Experimental Social Psychology (EAESP)/The Society for the Psychological Study of Social Issues (SPSSI) International Small Conferences 2002

Amount:

For each meeting, the host sponsor will contribute \$3,500 and the guest sponsor will contribute \$1,500 for each meeting. Therefore, the total contribution of both organizations is a limit of \$5,000. There will normally be two such conferences per year supported financially by EAESP and SPSSI.

Purpose:

To help strengthen links between the two organizations and provide opportunities for their members to discuss research questions that are of mutual interest. In the first year of the scheme, both organizations will act as "host sponsor" of one meeting. One meeting will be held in Europe and the other in North America.

Eligibility:

At least 80% of persons attending the small conferences co-sponsored by SPSSI and EAESP should be members of one or both organizations. The total number of participants should be in the range of 15-30. The conference should be attractive to members of EAESP and SPSSI. No more than two-thirds of the participants should be invited by one of the organizations. There must be two organizers, at least one should be a member of SPSSI and at least one should be a member of EAESP. Preferably one organizer should be based in Europe, the other in North America. The

themes of conferences should generally be social issues related, and these issues should be relevant internationally.

Deadlines:

Applications for conferences to be held in the first half of a calendar year must be received by March 15th in the preceding year. Applications for conferences in the second half of a calendar year must be received by September 15th in the preceding year. Applicants will be informed of decisions in April and October, respectively.

Faculty Early Career Development (CAREER) Program

Amount:

For the FY 2003 competition, the minimum CAREER award, including indirect costs, will total \$400,000 over a 5-year period with the following exception: applicants to the Biological Sciences Directorate (BIO) must submit budget requests for a minimum of \$500,000 (approximately \$100,000 per year) for the 5-year duration. The PECSE award is an entirely honorary award for all NSF recipients and does not provide additional funds. CAREER awards are eligible for supplemental funding, as described in the GPG, Section V.B.4.

Purpose:

To recognize and support the early career-development activities of those teacher-scholars who are most likely to become the academic leaders of the 21st century and provides stable support at a sufficient level and duration to enable awardees to develop careers as outstanding teacher-scholars in the context of the mission of their organization.

Eligibility:

You may submit an application if your institution has any of the following characteristics:

- For-profit or non-profit organization;
- Public or private institution, such as a university, college, hospital, and laboratory;
- Unit of State or local government;
- Eligible agencies of the Federal government; and
- Domestic.

Deadlines:

July 23, 2002 - July 22, 2003 - July 20, 2004 Biological Sciences (BIO),
Computer and Information Science and Engineering (CISE), Education and Human
Resources Engineering (ENG)
July 25, 2002 - July 24, 2003 - July 22, 2004 Geosciences (GEO) Mathematical and
Physical Sciences (MPS) Social, Behavioral and Economic Sciences (SBE) Office of
Polar Programs (OPP).

Proposers are required to prepare and submit all proposals for this Program Solicitation through the FastLane system. Detailed instructions for proposal preparation and submission via FastLane are available at

<http://www.fastlane.nsf.gov/a1/newstan.htm>.

Instructions for preparing project reports and uploading departmental endorsements into CAREER project reports can be found on the CAREER Web page at <http://www.nsf.gov/homes/crssprgm/career/report.htm>. Also refer to the GPG, Chapter VI.G.1 for information on preparation and submission of annual and final reports.

Initiative for Minority Students: Bridges to the Future

Amount:

Allowable Costs: Allowable costs and expenses include the following, as described:

- Administrative costs
- Salary support
- Extramural consultants
- Equipment (including computers)
- Travel to Bridges meetings
- Student travel to scientific meetings
- Limited remission of tuition
- Limited remuneration of students

Purpose:

To make available to the biomedical science research enterprise and to the nation the intellectual talents of an increasing number of underrepresented minority students.

Eligibility:

You may submit (an) application(s) if your institution has any of the following characteristics:

- For-profit or non-profit organization;
- Public or private institution, such as a university, college, hospital, and laboratory;
- Unit of State or local government
- Eligible agencies of the Federal government; and
- Domestic.

Eligible Students:

Underrepresented minority students majoring in the sciences, including natural, physical, and behavioral sciences, information sciences, and mathematics. Individuals who are underrepresented in biomedical or behavioral research include, but are not limited to, U.S. citizens who are African American, Hispanic American, Native American, and native to the U.S. Pacific Islands.

Deadlines:

May 14 and November 14

An institution may be involved as a partner in more than one Bridges program, but can be the APPLICANT institution for only one program. Institutions submitting their own applications may participate in programs with other applicant institutions as long as these interactions are consistent with the institutions' resources and plans. Institutions that submit applications in response to this PA may submit separate applications for support for a Bridges to the Future grant PAR-02-083 (<http://grants.nih.gov/grants/guide/pafiles/PAR-02-083.html>) if they meet the eligibility requirements.

Contact:

Submit a signed, typewritten original of the application, including the Checklist, and three signed, photocopies, in one package to:
Center For Scientific Review
National Institutes of Health
6701 Rockledge Drive, Room 1040, MSC 7710
Bethesda, MD 20892-7710
Bethesda, MD 20817 (for express/courier service)

Innovative Technologies for Enhancing Function for Individuals with Disabilities

Amount:

Well-justified Phase I applications with a project period of up to 2 years and a budget not to exceed \$100,000 per year total cost, including fixed fees, (maximum of \$200,000 total costs for 2 years will be allowed. Well-justified Phase II applications with a project period up to 3 years and a budget not to exceed \$400,000 in total costs, including fixed fees, per year will be allowed.

Purpose:

To improve the physical and/or mental function of individuals with disabilities through new technologies, delivery systems, and/or training techniques.

Eligibility:

You may submit an application if your institution meets the relevant agency's SBIR/STTR Program and application requirements. Agency-specific SBIR/STTR information, including eligibility requirements, mechanism of support, award levels, and application preparation requirements, is located at the following Web sites:

NIH: <http://grants.nih.gov/grants/funding/sbir.htm>

U.S. Department of Education: <http://www.ed.gov/offices/OERI/SBIR>

NSF: <http://www.eng.nsf.gov/sbir/>

Individuals Eligible to Become Principal Investigators:

Any individual with the skills, knowledge, and resources necessary to carry out the proposed research is invited to work with their institution to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH programs.

Deadline:

Applications must be received by or mailed before the receipt dates described at <http://grants.nih.gov/grants/funding/submissionschedule.htm>.

Contact:

Submit a signed, typewritten original of the application, including the checklist, and three signed, photocopies, in one package to:
Center For Scientific Review
National Institutes of Health
6701 Rockledge Drive, Room 1040, MSC 7710

Bethesda, MD 20817 (for express/courier service)

Mental Health Research Education Grants

Amount:

Allowable costs must be consistent with NIH policy and be reasonable, allocable, well documented, and justified for the research education program. Grant funds may not be used to supplant funds otherwise available at the application institution.

Purpose:

To foster the development of mental health researchers through creative and innovative educational programs.

Eligibility:

You may submit an application if your institution has any of the following characteristics:

- For-profit or non-profit organizations
- Public or private institutions, such as universities, colleges, hospitals, and laboratories
- Units of State and local governments
- Eligible agencies of the Federal government
- Domestic

Deadline:

Letter of Intent Receipt Date: 1 month prior to application receipt date

Prospective applicants are asked to submit a letter of intent that includes the following information:

- Descriptive title of the proposed research;
- Name, address, and telephone number of the Principal Investigator;
- Names of other key personnel;
- Participating institutions; and
- Number and title of this RFA.

Contact:

The letter of intent must be sent to:

Walter Goldschmidts, PhD

Division of Neuroscience and Basic Behavioral Science

National Institute of Mental Health

6001 Executive Blvd., Room 7200, MSC 9645

Bethesda, MD 20892-9645

301/443-3563

Fax: 301/443-1731

Email: wgoldsch@nih.gov

Application Receipt Date: October 1 each year for new applications, November 1 each year for revised applications.

Application must be prepared using the PHS 398 research grant application instructions and forms, which is available at

<http://grants.nih.gov/grants/funding/phs398/phs398.html>.

Submit a signed, typewritten original of the application, including the Checklist, and three signed, photocopies, in one package to:

Methodology and Measurement in the Behavioral and Social Sciences

Amount:

The estimated funds and (total costs) available for the first year of support for the programs is expected to be \$1.2 million in the FY 2003 (October 1, 2002-September 30, 2003). The actual amount may vary, depending on the response to the RFA and availability of funds. Ten to 12 awards are anticipated.

Purpose:

To encourage research that will improve the quality and scientific power of data collected in the behavioral and social sciences, relevant to the missions of the NIH Institutes and Centers. Research that addresses methodology and measurement issues in diverse populations, issues in studying sensitive behaviors, issues of ethics in research, issues related to confidential data in the protection of research subjects, and issues in developing multidisciplinary, multimethod, and multilevel approaches to behavioral and social science research is particularly encouraged.

Eligibility:

- Descriptive title of the proposed research;
- Name, address, and telephone number of the Principal Investigator;
- Names of other key personnel;
- Participating institutions; and
- Number and title of this RFA.

Deadlines:

Specific application instructions have been modified to reflect MODULAR GRANT and just-in-time streamlining efforts being examined by the NIH. Complete and detailed instructions are available at

<http://grants.nih.gov/grants/funding/modular/modular.htm>.

Contact:

Minority Institution Sciences Improvement Program

Amount:

No Listing

Eligibility:

Eligible institutions are: public and private nonprofit, predominately minority institutions; professional and scientific societies; and nonprofit accredited colleges and universities which provide in-service training to project directors, scientists, and engineers from eligible institutions.

Selection criteria:

Projects that are sought would enhance a minority institution's capacity for developing and maintaining a quality science program and would increase the flow of underrepresented ethnic minorities in science and engineering.

Deadline:

None

Contact:

U.S. Department of Education

Office of Post-secondary Education
Division of Higher Education Incentive Programs (MISIP)

National Heart, Lung, and Blood Institute (NHLBI) Mentored Minority Faculty Development

Amount:

[NOTE: FY 2003 funds already awarded.]

The estimated funds and total costs available for the first year of support for the programs is expected to be \$1.2 million in the FY 2003 (October 1, 2002-September 30, 2003). The actual amount may vary, depending on the response to the RFA and availability of funds. Ten to 12 awards are anticipated.

Purpose:

To develop highly trained minority investigators whose basic or clinical research interests are grounded in the advanced methods and experimental approaches needed to solve problems related to cardiovascular, pulmonary, hematologic, and sleep disorders.

Eligibility:

- Descriptive title of the proposed research;
- Name, address, and telephone number of the Principal Investigator;
- Names of other key personnel;
- Participating institutions; and
- Number and title of this RFA.

Deadlines:

Letter of Intent Receipt Date: (This is an annual award. Check Web site at <http://www.nhlbi.nih.gov/funding/inits/index.htm> in early 2003 for FY 2004 funding announcements.)

Prospective applicants are asked to submit a letter that includes the following information:

- Descriptive title of the proposed research;
- Name, address, and telephone number of the Principal Investigator;
- Names of other key personnel;
- Participating institutions; and
- Number and title of this RFA.

The letter of intent must be sent to:

Bethesda, MD 20892-7710
Bethesda, MD 20817 (for express/courier service)

National Heart, Lung, and Blood Institute (NHLBI) Minority Institutional Research Training Program (T32)

Amount:

[NOTE: FY 2003 funds already awarded.]

The estimated funds (total costs) available for the first year of support for the entire program is expected to be \$250,000 in FY 2003 (October 1, 2002-September 30, 2003). The actual amount may vary, depending on the response to the RFA and availability of funds. Two new awards are anticipated. Funds may be requested for stipends, tuition, fees, and health insurance, trainee travel costs, training-related expenses, facilities and administrative costs.

Purpose:

To support training of graduate and health professional students and individuals in post-doctoral training at minority schools having the potential to develop meritorious training programs in cardiovascular, pulmonary, hematologic, and sleep disorders.

Eligibility:

Minority school, research center, or trainees.

Deadlines:

Letter of Intent Receipt Date: (This is an annual award. Check Web site at <http://www.nhlbi.nih.gov/funding/inits/index.htm> in early 2003 for FY 2004 funding announcements.)

Prospective applicants are asked to submit a letter that includes the following information:

- Descriptive title of the proposed research;
- Name, address, and telephone number of the Principal Investigator;
- Names of other key personnel;
- Participating institutions; and
- Number and title of this RFA.

Although a letter of intent is not required, is not binding, and does not enter into the review of a subsequent applicant; the information that it contains allows NHLBI staff to estimate the potential review workload and plan for the review.

The letter of intent must be sent to:

Anne Clark, PhD

National Heart, Lung, and Blood Institute (NHLBI) Minority Institution Research Scientist Development Award (K01)

Amount:

[NOTE: FY 2003 funds already awarded.]

The estimated funds (total costs) available for the first year of support for the entire program is expected to be approximately \$400,000 in Fiscal Year 2003 (October 1, 2002-September 30, 2003). The actual amount may vary, depending on the response to the RFA and availability of funds. Three new awards are anticipated.

Purpose:

To enhance the institution's science infrastructure, to provide "hands-on" research opportunities for underrepresented minority students at the applicant institutions, and to develop the research career and teaching skills of the candidate.

Eligibility:

Minority school, research scientist development award candidate, mentor at same or collaborating research center, or student research assistants

Deadlines:

Letter of Intent: (This is an annual award. Check Web site at <http://www.nhlbi.nih.gov/funding/inits/index.htm> in early 2003 for FY 2004 funding announcements.)

Prospective applicants are asked to submit a letter that includes the following information:

- Descriptive title of the proposed research;
- Name, address, and telephone number of the Principal Investigator;
- Names of other key personnel;
- Participating institutions; and
- Number and title of this RFA.

Although a letter of intent is not required, is not binding, and does not enter into the review of a subsequent applicant, the information that it contains allows NHLBI staff to estimate the potential review workload and plan for the review.

The letter of intent must be sent to:

Anne Clark, PhD
Chief, Review Branch
Division of Extramural Affairs
National Heart, Lung, and Blood Institute (NHLBI)
6701 Rockledge Dr., Room 7178 (MSC 7924)
Bethesda, MD 20892-7924 (20817 for Courier)

National Heart, Lung, and Blood Institute (NHLBI) Short-Term Training for Minority Students Program (T35)

Amount:

[NOTE: FY 2003 funds already awarded.]

The estimated funds (total costs) available for the first year of support for the entire program is expected to be \$250,000 in FY 2003 (October 1, 2002-September 30, 2003). The actual amount varies, depending on the response to the RFA and availability of funds. Seven awards are anticipated.

Purpose:

To provide short-term research support to underrepresented minority undergraduate and graduate students and students in health professional schools to provide them with career opportunities in cardiovascular, pulmonary, hematologic and sleep disorders research.

Eligibility:

- Descriptive title of the proposed research;
- Name, address, and telephone number of the Principal Investigator;
- Names of other key personnel;
- Participating institutions; and
- Number and title of this RFA.

Domestic institutions; foreign institutions are not eligible for the NHLBI Short-Term Training for Minority Students Program (T35) grants.

Deadlines:

National Institute of Mental Health (NIMH) Minority Research Infrastructure Support Program (R24)

Mental Health Research Education Grants

Amount:

Beginning with competing applications submitted in response to this PAR, the maximum direct cost allowed for the M-RISP grant is \$400,000 per year, plus negotiated Facilities and Administrative Costs (F&A)—formerly known as indirect costs. The infrastructure core component of M-RISP grants averages \$100,000 per year in direct costs. Individual Investigators projects average \$60,000 per year in direct costs. These new amounts do not apply to non-competing continuation grants initiated prior to FY 2002. Support is limited to 3 years for a first-time application. The core infrastructure component of an M-RISP grant is renewable for intervals of up to 5 years, provided that investigators are continuing and/or new investigators are selected.

Purpose:

To build infrastructure in predominantly minority academic institutions to increase the capacity of these institutions and their faculty to conduct rigorous mental health-related research. The intent of the research infrastructure program is to strengthen the research environments of predominantly minority institutions through grant support to develop and/or expand existing capabilities for conducting research in all fields related to mental health.

Eligibility:

Applications may be submitted by domestic for-profit and non-profit organizations, public and private, such as universities, colleges, hospitals, laboratories, units and eligible agencies of State and local government.

Foreign institutions are not eligible for the R24 mechanism. Racial/ethnic minority individuals, women, and persons with disabilities are encouraged to apply as principal investigators.

Partnerships between minority and majority institutions that will result in strengthening predominantly minority institutions in their research capability are encouraged.

Applicants must indicate which of the following eligible conditions apply to their institutions and must furnish evidence to document.

- An academic institution with at least 50 percent minority (African American, Hispanic, American Indian or Alaskan Native, Asian, or Pacific Islander) student enrollment;
- An institution with more than 30 percent minority student enrollment in each of the past 3 years that can provide evidence of efforts to recruit members of ethnic or racial groups into scientific careers. Additionally, the institution should show evidence of demonstrated commitment to minority faculty recruitment and development in expenditure of resources, as well as documented institutional need for support in its research development program. Potential applicants who intend to apply under this eligibility criterion are advised to consult with NIMH staff before submitting an application.
- A Native American tribe may apply in conjunction with one or more institutions of higher learning that offer undergraduate and graduate degrees in mental health-related fields. Such applicants must have a recognized governing body and perform substantial governmental functions, or qualify as an Alaskan Regional Corporation (ARC) as defined in the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.).

Deadline:

June 1, annually Oct/Nov/Jan/Feb/April 1

Applications are to be submitted via grant application form PHS 398.

The Sages Program 2003

Amount:

Funding for up to a total of \$7,000 can be submitted for direct costs related to the project. This can be spent over a 2-year period. Money can be used for hiring staff (including clerical assistance), computing fees, travel, telephone, or other justifiable expenses. Funding cannot be used for a stipend for the person submitting the application.

Purpose:

To encourage members of the Sages Program, who are age 60 and over and/or retired to apply their knowledge to helping solve social problems or to assist policy makers. Proposals are invited that use social science research findings to address social problems through direct action projects, consulting with not-for-profit groups,

or through preparing reviews of existing social science literature that could be used by policymakers.

Eligibility:

The Society for the Psychological Study of Social Issues (SPSSI) members who are retired and/or over the age of 60 are eligible.

Deadline:

Applications should be submitted by February 15, 2003.

Robert S. and Grace W. Stone Primary Prevention Initiatives Grant Program Awards

Amount: Up to five individual dissertation awards ranging from \$2,500 to \$5,000 per year for up to 2 years will be granted, and up to five research grants ranging from \$2,500 to \$50,000 per year for up to 3 years will be awarded.

Purpose: To support research and evaluation that advances understanding of the role of relationships in fostering child and adolescent wellbeing and healthy human development. Proposals for research grounded in Relational-Cultural Theory are particularly encouraged, as are those that give particular attention to the ways findings can be used programmatically to help children. The Stone Center, part of the Wellesley Centers for Women at Wellesley College is sponsoring the Robert S. and Grace W. Stone Primary Prevention Initiatives Grant Program: Empowering Children for Life.

Eligibility: *Dissertation Awards:* open to students enrolled in an accredited graduate program at a U.S. university and working toward a PhD, EdD, or PsyD. Proof of student status and two faculty recommendations must be submitted with the application, which must be for work on an approved dissertation topic. (Indirect costs not included.)

Research Grants: awarded to researchers (PhD or equivalent) who are based at universities and/or not-for-profit research institutions in the United States. Research grants will be awarded to the institution, not to individuals. (Indirect costs up to 15% of the total budget are allowed.) Researchers from universities or research institutions in the U.S., including researchers from the Wellesley Centers for Women are eligible to apply.

Application Details: The original full proposal should be submitted with two copies, and must contain the following information:

- 1) Cover page listing the project's title, the names of the investigator(s), the amount of the request, its term (1 to 2 years for Dissertation Awards, 1 to 3 years for Research Grants). Research grant applications must be signed by an authorized institutional official.
- 2) Abstract of the proposal (no more than one page) concisely summarizing each of the items listed under #3 below. The abstract should serve as a succinct and

accurate description of the proposed work and should briefly describe the research goals and objectives, research design, and methods for achieving the goals and objectives.

- 3) The full proposal should be no more than 20 double-spaced pages and should:
 - g) State the research question(s) and their justification in a concise manner and include a review of recent literature that locates this specific inquiry in the current relevant empirical, theoretical and/or evaluation literature(s), (e.g., psychology, education, the role of relationships in human development).
 - h) Describe and provide detailed rationale(s) for the proposed research or study design and analytical methodologies, as well as sufficient information to judge the rigor and expertise of the investigator (for instance, a brief description of preliminary studies or previous work on the proposed or related topic conducted by the PI or with which s/he has been involved).
 - i) Articulate the anticipated contribution of this project to the stated purpose of this grant program with particular emphasis on how the proposed work will illuminate those specific aspects of relationships between children and adults that are most conducive to the healthy development of youth.

The following items should be submitted with the proposal as appendices:

- 4) Budget by grant year for all direct and indirect costs. Multiple year proposals should include budgets for each year. Indirect costs may not exceed 15% of total direct costs. This ceiling includes any indirect costs contained in expenses for subgranted or subcontracted services. (Indirect costs may not be submitted for Dissertation Awards.)
- 5) Institutional Review Board approval of the investigator's institution is necessary for all projects involving human subjects. Proposals should indicate how issues of protection of human subjects will be addressed and the intention to seek such approval if the proposal is funded. Such approval must be documented before a grant is fully executed.
- 6) Brief curriculum vitae (no more than three pages) should be included for all principal investigators.
- 7) Non-profit status should be confirmed by submitting an IRS Tax Determination under the 1969 Tax Reform Act for the institution that will receive a grant. Research grants are made to organizations or institutions, not individuals.

Deadline: May 2, 2003 (Faxed and/or electronic submissions are not accepted. Applicants are notified in mid-July 2003 about award decisions.)

Science Education Drug Abuse Partnership Award

Mental Health Research Education Grants

Amount:

Applications must not exceed 4 years and requested annual direct costs may not exceed \$250,000.

Purpose:

To fund the development and evaluation of innovative model programs and materials for enhancing knowledge and understanding of neuroscience and the biology of drug abuse and addiction among K-12 students, the general public, health care practitioners, and other groups. The award provides support for the formation of partnerships between scientists and educators, media experts, community leaders, and other interested organizations for the development and evaluation of programs and materials that will enhance knowledge and understanding of science related to drug abuse. The intended focus is on topics not well addressed in existing efforts by educational, community, or media activities.

Eligibility:

You may submit an application if your institution has any of the following characteristics:

- For-profit or non-profit organizations;
- Public or private institutions, such as universities, colleges, hospitals, professional societies, museums, media producers, private foundations and industries and research laboratories;
- Units of State and local governments;
- Eligible agencies of the Federal government; or
- Faith-based organizations.

Deadline:

Applications submitted in response to this program announcement will be accepted at the standard application deadlines, which are available at <http://grants.nih.gov/grants/dates.htm>. Application deadlines are also indicated in the PHS 398 application kit.

Applications must be prepared using the PHS 398 research grant application instructions and forms. The PHS 398 is available at <http://grants.nih.gov/grants/funding/phs398/phs398.html> in an interactive format.

Small Business Innovation Research (SBIR) for Mental Health Interventions Phase II (PRESOL)

Amount: \$100,000 for 6 months

Phase I of the SBIR contracts were awarded on or before September 30, 2002, at approximately \$100,000 per awardee for a period of 6 months.

Phase I--The objective of Phase I is to establish the technical merit and feasibility of the proposed R/R&D efforts and to determine the quality of performance of the small business awardee organization prior to providing further Federal support in Phase II. Support under Phase I is normally provided for six months/\$100,000 for SBIR and one year/\$100,000 for STTR. However, applicants may propose longer periods of time and greater amounts of funds necessary for completion of the project.

Phase II--The objective of Phase II is to continue the R/R&D efforts initiated in Phase I. Support under Phase II is normally provided for two years/\$750,000 for SBIR and two years/\$500,000 for STTR. However, applicants may propose longer periods of time and greater amounts of funds necessary for completion of the project.

Eligibility:

Only Phase I awardees are eligible for a Phase II awards.

(Phase II applications may be submitted on any of the three scheduled receipt dates identified below, either before or after expiration of the Phase I budget period.)

However, the Phase II grant application should be submitted no later than the first six receipt dates following expiration of the Phase I budget period. Applicant small business concerns are reminded that Phase II funding is based on the results of Phase I, scientific and technical merit, and commercial potential of the Phase II application. Applicants are cautioned that applications not demonstrating sufficient results in Phase I may not receive a score in the peer review process.

Purpose:

To issue a Request for Proposal (RFP) No. NIMH-02-DS-206X for the five topics listed below under the Small Business/Set-Aside procedures of the Small Business Innovation Research (SBIR) Program. The SBIR topics are as follows: Topic 0201: Development of Dissemination and Implementation Tools for the Delivery of Empirically Validated Mental Health Interventions in Rural and Frontier Areas; Topic 0202: Mental Intervention and Services Trial Operation Archive; Topic 0203: Developing Research Based Training Modules for Conducting Community Based Mental Health Interventions and Services Research with Underserved Racial/Ethnic and Rural/Frontier Populations; Topic 0204: Web-based Resource on Meeting the Mental Health Needs of Individuals with Neuropsychiatric and Neurodevelopment Disorder; Topic 0205; Evaluation of Mental Interventions and Services Research Protocols in Urban and Rural Communities: Empirically Based Ethics Training Modules.
