Dear Principal or School Leader:

The Greater Milwaukee Committee, the Faye McBeath Foundation and the Education Deans of Greater Milwaukee (EDGM) have collaborated to recognize teaching professionals in the region who have devoted their career to fostering the learning and development of students in the Milwaukee area. In 2016, this partnership will recognize teachers who are doing exemplary work in the area of STEM education including teachers that integrate STEM content across other curricular areas.

The EDGM leverages the assets of its institutions to support continuous improvement of PK-21 education in the region and recognizes outstanding teachers in PK-12 urban schools. The Celebrate Teachers & Teaching Award spotlights women and men who have received their professional certifications at one of the EDGM institutions including: Alverno College, Cardinal Stritch University, Carroll University, Concordia University of Wisconsin, University of Wisconsin-Milwaukee, Milwaukee Area Technical College, Wisconsin Lutheran College, Marquette University, and Mount Mary University.

SUBMIT YOUR NOMINATIONS:

Please help us identify outstanding teachers who are dynamic and innovative in assisting students to understand and integrate science, technology, engineering, mathematics—and the arts—into experiential, hands-on active learning, inquiry-based learning or project-based learning with real-world problems.

- Nominees must have received a degree or certification from at least one of the EDGM institutions listed on the left.
- Teachers may be nominated in one of two categories: Early Career (less than three years of experience) or Advanced Career (three or more years of experience.)

Please submit your nomination on or before December 14, 2015 at the CT&T website:

http://www.celebrateteachingmke.org

Each of the two winners will receive a $1,000 check at the October 13, 2016 recognition event. Nominees who receive Honorable Mention will also be recognized at the event.

Thank you for your support in helping us identify the ‘best of the best’ teachers in STEM education.

Sincerely,

Dr. Bill Henk, Dean, College of Education
Marquette University
Co-Chair, EDGM

Dr. Freda Russell, Dean, College of Education & Leadership
Cardinal Stritch University
Co-Chair, EDGM
