Alexander Mitchell School

Mitchell is a K-8 school in an urban environment looking for candidates that are willing to work with students that need a strong socio-emotional classroom environment alongside standards-based instruction. Collaborative staff, including an in-house Interventionist, two School Support Teachers, and a Socio-emotional teacher that support classrooms.

We have a wealth of opportunities at Mitchell that we are in the process of developing, including a partnership grant which will expand our in-school collaboration, as well as build our after-school programming and supports. We have two openings in monolingual at Mitchell, one in 6th grade and one in 7th grade.
