

MARQUETTE UNIVERSITY

College of Business Administration – MATC

The heart of every Marquette University academic program consists of the **University Core of Common Studies (UCCS)**. The Core provides students with the knowledge, skills and values that define a Marquette education. All students complete courses in nine knowledge areas as part of their degree. Students in the Klingler College of Arts & Sciences complete these UCCS courses within the framework of the college curriculum listed below.

Business majors available to transfer students include: accounting, economics, entrepreneurship, finance, human resources, information technology, international business, marketing, operations and supply chain management and real estate.

Transfer courses may satisfy core requirements, count toward a major, or count as electives. Additional credits may be awarded through AP, IB or CLEP examinations (official scores must be submitted directly from the testing agency to Marquette University). For information on AP/IB/CLEP course credit awards <http://bulletin.marquette.edu/undergrad/admissionprocedures/#placementexamcredit>. Transfer students accepted to Marquette can view their official "Transfer Credit" evaluation via their CheckMarq account.

For additional information on the transfer admission including, AP/IB transfer credits, scholarship, and financial assistance process contact: Undergraduate Admissions 414-288-7302 or visit www.marquette.edu/explore.

This is a guide, not a contract. Not all details and regulations are included. Changes in either institution's curriculum may invalidate part of this information. The Marquette University Bulletin (www.marquette.edu/bulletin) issued for the academic year in which the student enrolls governs curricular requirements for that student. Students with a specific major in mind may consult a Marquette academic adviser about how best to satisfy core requirements according to their intended major.
