Fiscal Year 2016 Proposed Operating Budget

At the December meeting, the Board of Trustees is being asked to approve the proposed operating budget for the fiscal year ending June 30, 2016 (FY16). For FY16, the university is proposing a balanced budget with total revenues and expenses of \$409.2 million, which is an increase of \$9.5 million over fiscal year 2015 (FY15). The schedules accompanying this report present both the proposed FY16 operating budget and the FY15 budget.

#### **Enrollment and Tuition Revenue**

Total gross tuition and fees revenue is projected to be \$376.1 million, which represents an increase of \$13.3 million compared to the FY15 budget. The university is proposing to increase the budgeted number of new freshmen by 100, from 1,900 in FY15 to 2,000 for FY16. The additional 100 new freshmen will be targeted to the College of Health Sciences and the College of Engineering, 75 and 25 students, respectively. The transfer student budget is proposed to increase by 25 from 150 in FY15 to 175 in FY16. To help ensure that the target of 175 transfer students is reached, the Transfer Enrollment Committee, along with the Undergraduate Admissions Office, is implementing the following initiatives:

- Identifying a full-time transfer coordinator
- Completing overhauls of the transfer website and the transfer database
- Working with the college deans in standardizing the university transfer protocol
- Student transfer decisions being made in the Undergraduate Admissions Office
- Developing a spring marketing plan with the Office of Marketing and Communication
- Dean of Arts and Sciences is working with his faculty to review that college's separate core requirements

Budgeted graduate credit hours for FY16 of 19,487 are projected to be lower by 981 compared to the budget of 20,468 in FY15. Much of the decline comes from the Graduate School of Management.

Enrollment totals used in calculating tuition revenues are shown on the "Fiscal Year 2016 Proposed Unrestricted Operating Budget Assumptions" schedule.

The Board is asked to approve a tuition rate increase of 3.50% for full-time undergraduates, an increase of 2.5% in the tuition rates for Graduate School, and no increase in the tuition rates for part-time students and summer school. Law and Dental tuition rate increases are noted on the FY16 Budget Assumptions schedule. This is the third year in which the university has proposed an undergraduate tuition increase lower than the previous year.

#### **Tuition Discount**

Total tuition discount is anticipated to be \$126.5 million, which represents an increase of \$7.6 million over the FY15 budget. Total net tuition and fee revenue of \$249.6 million is \$5.7 million above the FY15 budget.

The undergraduate unfunded discount budget was based on prior year trend analysis and enrollment goals established by the university. Marquette's financial goals continue to be multifaceted: meet net tuition budget, enhance student quality, provide diversity, and maintain first generation and legacy students.

Graduate School discount was increased by 5.0% in order to address cost of living issues with graduate assistantships even though graduate enrollment has declined. Funded scholarships are expected to be the same as FY15.

#### **Other Revenues**

Federal, state, and private grants are budgeted at \$40.2 million for FY16.

Contributions are budgeted at \$17.4 million, the same as FY15.

Auxiliary enterprises revenues are projected at \$64.0 million, which represents an increase of \$2.9 million over the FY15 budget. Spirit Shop revenues are projected to remain the same as prior year. The Athletics revenue increase to \$15.2 million for FY16 is due to additional media revenue. Room and board revenues, included in auxiliary revenues, are \$45.3 million based on an occupancy rate of 97.0% and an average increase of 2.0% in room and board and apartment rates.

Projected sales by educational departments will increase \$390 thousand to \$10.5 million due to the approved and expanded dental clinic revenues.

Investment income is projected to be \$265 thousand, a slight increase over the FY15 budget due to the rate of return on investments.

Endowment income is projected to increase by the current 3.0% spending policy to \$15.8 million for FY16.

Increase in Other income is due to additional revenues from HEI and the Dental School.

#### **Employee Headcount and Compensation**

The FY16 total employee full-time headcount is expected to increase by 18. Please see the attached Full-time Headcount Supported by Unrestricted schedule.

Total salary is expected to increase by \$3.3 million to \$192.5 million. This increase includes a merit pool of \$2.3 million. \$1.0 million in salary which be allocated to the Provost Office for staff needed to accommodate the additional 100 undergraduate students (\$300 thousand), university initiatives (\$300 thousand), tenure, faculty promotion, and gender equity (\$400 thousand).

Fringe Benefits will increase by \$1.6 million because of ongoing increases in health care and the increases in additional academic staff.

#### **Operating Expenses**

Total operating expenses of \$158.3 million represent an increase of \$4.6 million over FY15.

#### **Discretionary Expenses**

Discretionary expenses are projected to be \$76.9 million for FY16, which is flat to FY15. Additional expense budgets will be provided to the Colleges of Health Sciences and Engineering to accommodate the additional 100 undergraduate students. In addition, previously approved programs, Teach for America, Dental School, Physician Assistant, and CTRH in College of Health Sciences, have additional operating budgets. The reduction in the unrestricted discretionary expenses budget is due to budget reallocation to compensation and non-discretionary expenses.

#### **Non-Discretionary Expenses**

Non-discretionary expenses, which include utilities, insurance, interest, food, contract maintenance, and depreciation, are projected to be \$69.9 million and represents an increase of \$2.6 million over FY15.

#### **Other Expenses**

The Provost Opportunity fund has declined as a permanent budget transfer of \$250 thousand was made to academic units in FY15.

For FY16, the university has established \$1.0 million of permanent unrestricted funding for the Innovation Fund that will be used for newly approved programs and initiatives.

The university will increase the annual contingency by an additional \$1.0 million from \$8.0 million in FY15 to \$9.0 million in FY16 to improve the university's overall financial viability and to mitigate enrollment and other risks.

(Dollars in Thousands)

Fiscal Year 2016 Proposed Capital Budget

At this meeting, the Board of Trustees will be asked to approve the proposed \$52.3 million capital budget for the fiscal year ending June 30, 2016 (FY16). The proposed FY16 capital expenditures include:

#### A. Available Cash (\$52.3 million)

Projected unrestricted annual capital/debt expenses are anticipated to total \$28.2 million and will be funded by the cash generated from operations (depreciation expense). Projected restricted/other source expenditures totaling \$24.1 million will be funded from contributions, grants, cash reserves, and bond proceeds.

#### **B. Prior / Annual Commitments (\$20.6 million)**

Prior commitment funding will include principal payments, books and periodicals, replacement programs, technology upgrades, and facility improvements and expansions. Noteworthy projects are as follows:

#### • Academic Start Up

For FY16, the Provost Office is being provided \$1.3 million in academic equipment for the recruitment and retention of faculty.

#### • Innovation Fund

As part of the university's commitment to its strategic goals, an Innovation Fund of \$1.0 million will be provided to support the capital needs of approved new programs and initiatives.

#### • Computer Replacement

The computer replacement program will be funded at \$1.0 million to continue upgrading technology for faculty and staff.

#### • Dental School Expansion

The School of Dentistry will be funded \$1.1 million to purchase additional equipment and finish renovations.

#### Engineering Hall

Pledge payments and restricted funding of \$600 thousand are expected for Engineering Hall in FY16. The funding will be used to purchase additional research equipment as identified by the College of Engineering.

#### C. Proposed New Commitments (\$31.7 million)

Proposed new commitments will include addressing safety and security issues as well as strategic facility priorities. Proposed new commitments are as follows:

#### Safety and Security (\$930 thousand)

#### • Facility Renewal – Facade

A \$400 thousand pool is being set aside to address City of Milwaukee mandated façade repair. These improvements cover academic, administrative, and/or student housing facilities.

#### • Security Camera Replacement

The aging security camera infrastructure is being replaced. This is the final year of a three year project with \$530 thousand being allocated in FY16.

#### **Strategic Facility Priorities (\$25.4 million)**

#### • Historic Core

Funding of \$2.5 million is being allocated to complete the renovations of Johnston Hall, Marquette Hall, Sensenbrenner Hall, and Coughlin Hall. This is the final year of a multi-year project totaling \$30.0 million.

#### • Jesuit Residence

Funding of \$15.0 million has been raised for construction and design of the new Jesuit Residence (\$12.0 million) and additional site improvements / demolition of the old facility (\$3.0 million). At the May meeting, the Board approved a completed design and budget of \$1.0 million. Construction is expected to be completed by November of 2015.

#### • Academic Renovations

The Provost Office has requested \$1.2 million for academic capital projects. These projects will be funded by the individual units operating budgets or donations. These projects include Health Sciences equipment, Law School classroom equipment, Raynor Library technology, College of Business office renovation and Haggerty Museum technology upgrades and renovations.

#### • Athletic Facility Improvements

Intercollegiate athletics has requested \$1.7 million for facility improvements for the McGuire Center, Walk of Champions, and Valley Fields. Work in Valley fields will include turf, running track, and lighting replacements. These projects will be funded by donor activity or unit operating budgets.

#### • Weasler Auditorium

In order to accommodate the additional 100 undergraduate freshman, the Weasler Auditorium will be reconfigured to also function as a high capacity classroom. The cost of needed seating and equipment is \$500 thousand.

#### • Facility Improvements – Housing

\$3.0 million is being provided as a placeholder for student housing.

#### • Property Acquisitions

\$2.5 million will be set as a place holder for property acquisitions.

#### Other Projects (\$5.3 million)

For FY16, \$5.3 million in funding will be allocated to Information Technology Services (servers, software and network updates), Provost / Academic Projects (faculty equipment, and lab renovations), Student Affairs (musical instruments and recreational equipment), and Facilities Services (HVAC, renovations, and various infrastructure improvements).
