INTRODUCTION

The University is making available a plan of blanket accident and sickness insurance (hereinafter called “plan” or “Plan”) underwritten by Nationwide Life Insurance Company and administered by American Management Advisors, Inc. This brochure provides a general summary of the insurance coverage; the Schedule of Benefits is not all inclusive of eligible benefits payable under this plan. Keep this brochure as no individual policy will be issued. This summary is not a contract; however, the Master Policy will be available for review on the Plan Administrator’s website: http://www.marquette.edu/riskunit/riskmanagement/student_health_insurance.shtml. The Master Policy contains the contract provisions and shall prevail in the event of any conflict between this brochure and the Master Policy.

The insurance plan provides continuous protection, 24 hours a day, anywhere in the world during the period of coverage for which the proper premium has been paid. Coverage is not automatically renewed. Students must re-enroll when coverage terminates to maintain continuous coverage.

SUMMARY OF PLAN BENEFITS

• The policy maximum benefit is $500,000 for all covered injury and sickness.
• Benefits are subject to a policy year deductible, in-network $200 per person or out-of-network $500 per person. The in-network deductible is waived if the student receives treatment from the Marquette University Medical Clinic (formerly Student Health Services) see page 9.
• Repatriation and medical evacuation benefits providing 24-hour assistance services are included.
• To maximize savings and reduce out-of-pocket expenses, select a HealthEOS Plus preferred provider. These preferred providers have agreed to provide services at discounted rates.

• Full Fellowship Recipients
• Less than Full Assistantship Recipients

Students who are a qualified recipient should have received a letter from the Marquette University Graduate School.

Students taking the following courses are not eligible to enroll in the insurance plan: distance learning courses; students solely taking off-campus internet, home study, correspondence, or television courses; courses taken for audit.

Students must be physically and actively attending classes to enroll in the insurance plan. Except for medical withdrawal due to a covered injury or sickness, any insured withdrawing from the University must submit documentation or certification of the medical withdrawal to the Plan Administrator at least 30 days prior to the medical leave of absence from the University, if the medical reason for the absence is foreseeable, or 30 days after the start date of the medical leave of absence from the University. Any student voluntarily withdrawing from the University during the first 31 days after the effective date of coverage shall not be covered under the insurance plan and a full refund of premium will be made minus the cost of any claim benefits paid by us. Students who graduate or withdraw from the University after 31 days, whether involuntarily or voluntarily, will remain covered under the Policy for the term purchased and no refund will be allowed.

The Plan Administrator reserves the right to determine if the student has met the eligibility requirements. If the Plan Administrator later determines the eligibility requirements have not been met, its only obligation is to refund the premium.

PREMIUM

Payment of Premium/Due Date: All premium, charges or fees must be paid to Plan Administrator prior to the start of the term for which coverage is selected, or to the University collecting premium payments as agreed upon by the University and Plan Administrator. In no event will coverage become effective prior to the date of enrollment and before required premium is received.

Returned or Dishonored Payment: If a check or credit card payment for the premium is dishonored for insufficient funds, a reasonable service charge may be charged to the insured which will not exceed the maximum specified under state law. A dishonored check or credit card payment shall be considered a failure to pay premium and coverage shall not take effect.

Premium Refund Policy: A prorated refund, less any claims paid, will be issued only for the following situations below. Any refund provided is subject to a $25 administration fee.

- Students who voluntarily withdraw from the University within the first 31 days following their effective date of coverage; or
- Students who have entered into full-time active duty military service for any country; or
- Students who are non-immigrant foreign nationals who have permanently left the North American Continent for their home country.

All premium refund requests must be made in writing and include any proof (such as airline ticket) and date of occurrence. Refund requests should be sent to:

LATE ENROLLMENT

Students and dependents may enroll after the enrollment period deadline date only if there is a qualifying event. Qualifying events include involuntary loss of coverage under another insurance plan, marriage, birth of child, adoption of a child, or a step and foster child acquired after the insured’s effective date. The insured must notify the Plan Administrator immediately when eligible for late enrollment. Coverage is effective upon enrollment and receipt of premium.

Involuntary Loss of Coverage: If the insured chose not to enroll in the insurance plan when first eligible as a result of coverage under another insurance plan, the insured may enroll if the Plan Administrator is notified in writing and the enrollment and premium are received no later than 31 days after the involuntary loss of coverage under the other insurance plan. This does not apply if the other insurance plan was voluntarily terminated.

Newborn Children: An insured’s newborn child is automatically covered from the moment of birth until the child is 60 days old. Coverage for the child will be for sickness and injury, including medically diagnosed congenital defects, birth abnormalities, prematurity and nursery care. However, the insured must notify the Plan Administrator in writing within 31 days of the birth date and pay the required additional premium, if any, in order to have coverage for the newborn child continue beyond such 60 day period.

Step-Child: Coverage for a step-child is effective on the date the insured marries the child’s parent. However, the insured must notify the Plan Administrator in writing no later than 31 days from the date of marriage and pay the required additional premium, if any, in order to have coverage for the child continue beyond such 31 day period.

Foster Child: Coverage for a foster child is effective upon the date of placement with the insured. Coverage will continue unless the placement is disrupted and the child is removed from placement. However, the insured must notify the Plan Administrator in writing within 31 days of such placement and pay the required additional premium, if any, in order to have coverage for the foster child continue beyond the 31 day period.

Adopted Child: Coverage for an adopted child is effective upon the earlier of the date of placement for the purpose of adoption or the date of the entry of an order granting the adoptive parent custody of the child for purposes of adoption. Coverage for such child will be for sickness and injury, including medically diagnosed congenital defects, birth abnormalities, prematurity and nursery care. Coverage will continue unless the placement is disrupted prior to legal adoption and the child is removed from placement. However, the insured must notify the Plan Administrator in writing within 31 days of the adoption and pay the required additional premium, if any, in order to have coverage for the adopted child continue beyond the 31 day period.

Dependent Spouse: A dependent spouse is eligible for coverage on the date of marriage to the insured. However, the insured must notify the Plan Administrator in writing no later than 31 days from the date of marriage and pay the required additional premium.
Domestic/Civil Union Partner: A Domestic/civil union partner is eligible for coverage on the date the domestic/civil union partnership begins. Enrollment and premium must be received no later than 31 days from the date the domestic/civil union partnership begins. Refer to the Definition section in this brochure for the eligibility criteria for a domestic/civil union partner.

EFFECTIVE AND TERMINATION DATES OF COVERAGE
Coverage becomes effective on the later of the following dates:
• The Master Policy effective date August 1, 2013, at 12:01 a.m.,
• The first day of the term for which the proper premium is paid;
• 12:01 a.m. following the date the proper premium is received by the Plan Administrator.

Dependent coverage under the Policy becomes effective on the same date as the insured student for which the proper dependent premium payment is received. Coverage will not be effective prior to that of the insured student.

Coverage will terminate on the earliest of the following dates:
• the Master Policy termination date July 31, 2014, at 11:59 p.m.;
• the last day of the term of coverage for which the proper premium is paid;
• the date the insured enters into full time active military service;
• the date a foreign national permanently departs for their home country;
• the date the premium for insurance coverage is due and unpaid.

Dependent coverage will not extend beyond the student’s termination date of coverage.

Coverage will continue for a handicapped dependent child who is not capable of self-support due to a mental retardation or physical handicap if:
1. The dependent child became incapacitated prior to the age at which coverage would otherwise have terminated;
2. The dependent child is primarily dependent on the student for support and maintenance;
3. Proof of such incapacity and dependence is given to the Plan Administrator by the attending physician within 31 days of the date the dependent child reaches the limiting age. Proof must also be given annually after the 2 year period following the attainment of the limiting age. Failure to provide such proof within 31 days of the request will result in the termination of the dependent child’s coverage under the Policy. Coverage will continue as long as the dependent child continues to satisfy the requirements above, unless coverage is otherwise terminated in accordance with the terms of the Policy.

IMPORTANT: Coverage is not automatically renewed. Students are responsible for keeping the Policy in force.

Extension of Benefits
The coverage provided under the Policy ceases on the insured’s termination date, except for the following situation:
• The insured is hospital confined on the termination date from a covered injury or sickness for which benefits were paid before the termination date. The covered expenses for the injury or sickness will continue to be paid for a period of 90 days or until date of discharge, whichever is earlier.

Note: The total payments made for the covered expenses for the medical condition both before and after the termination date will never exceed the Policy maximum benefit. After the extension of benefits provision has been exhausted, all benefits cease to exist and under no circumstances will further benefits be paid.

EXPLANATION OF BENEFITS

BENEFIT PAYMENTS
Benefits are payable only for covered expenses incurred during the policy period. No benefits are payable for covered expenses incurred prior to or after the insured’s effective or termination dates respectively. Covered expenses are payable at the in-network insurer percentage for the preferred allowance or the out-of-network insurer percentage for the provider reasonable and customary charges. Benefits will be payable for each covered injury or sickness up to the policy year maximum. In addition to the policy maximum benefit, the Policy may contain benefit-level maximums for a covered expense, as outlined in the Schedule of Benefits. The insured is responsible for the deductible, copay, coinsurance and the balance of expenses not paid by the Policy.

PRECERTIFICATION AND REFERRALS
This insurance plan does not require pre-certification or referrals for emergency services, to obtain access to providers specializing in obstetrics or gynecology, or any covered service prior to the date the service is performed. Covered services will be evaluated for benefits when the claim is submitted to the Plan Administrator for payment. A verbal explanation of benefits does not guarantee payment of claims.
PAYMENT DEFINITIONS

Covered services payable under the Policy, are subject to the following payment provisions as described below.

Coinsurance is the insured’s share of the costs, calculated as a percentage, after the Policy pays the insurer percentage.

Copay is the fixed dollar amount the insured must pay for specified covered expenses, each time the covered service is received. The prescription drug copay is not paid at the pharmacy, but rather is subtracted from benefits when a claim is submitted by the insured for payment.

Deductible is the amount subtracted from covered expenses before benefits are considered. Each insured person or family must satisfy the deductible. A deductible may be required for each injury or sickness, once per policy period, or each time the covered service is received.

Insurer percentage is the percentage of covered expenses the Policy pays, after the deductible or copay is satisfied. Refer to the Schedule of Benefits for the amount.

Policy Maximum Benefit: The maximum amount of benefits the Policy will pay for all covered conditions (injury and sickness) each policy year for each covered person. This amount is shown in the Schedule of Benefits.

MEDICAL NECESSITY and MEDICAL APPROPRIATENESS DETERMINATION

The Company reserves the right to review claims and establish standards and criteria to determine if a covered service is medically necessary and/or medically appropriate. Benefits will be denied by the Company for covered services that are not medically necessary and/or medically appropriate. In the event of such a denial, the insured will be liable for the entire amount billed by that provider. The insured has the right to appeal any adverse decision as outlined in the Appeals and Complaint section of this brochure.

Covered Services are medically necessary if they are:
- Required to meet the health care needs of the insured; and
- Consistent (in scope, duration, intensity and frequency of treatment) with current scientifically based guidelines of national medical or research organizations or governmental agencies; and
- Consistent with the diagnosis of the condition; and
- Required for reasons other than the comfort or convenience of the insured or provider; and
- Of demonstrated medical value and medical effectiveness.

A covered service is medically appropriate if it is rendered in the most cost-effective manner and type of setting appropriate for the care and treatment of the condition. When specifically applied to hospital confinement, it means that the diagnosis or treatment of symptoms or a condition cannot be safely provided on an outpatient basis.

A treatment, drug, device, procedure, supply or service shall not be considered as Medically Necessary if it:
- is experimental/investigational or for research purposes;
- is provided solely for educational purposes or the convenience of the patient, the patient’s family, physician, hospital or any other physician; exceeds in scope, duration or intensity that level of care that is needed to provide safe, adequate and appropriate diagnosis or treatment and where ongoing treatment is merely for maintenance or preventive care;
- could have been omitted without adversely affecting the patient’s condition or the quality of medical care;
- involves treatment with or the use of a medical device, drug or substance not formally approved by the U.S. Food and Drug Administration (FDA). If the prescribed drug is recognized as safe and effective for the treatment of a sickness or injury by one or more of the Standard Medical Reference Compendia or in the medical literature, even if the prescribed drug has not been approved by the FDA for the treatment of that specific sickness or injury, coverage will be provided, subject to the exclusions and limitations of the Policy;
- can be safely provided to the patient on a more cost-effective basis such as outpatient, by a different medical professional, or pursuant to a more conservative form of treatment.

If the insured has other insurance and pre-certification is required, this coverage will consider the services authorized by the primary carrier as medically necessary and process the insured’s claim accordingly unless otherwise excluded under the Policy. If the insured has any questions or concerns about whether a particular service, supply, or treatment is medically necessary or medically appropriate, contact the Plan Administrator.

The secondary plan may reduce the benefits it pays so that payments from all plans do not exceed 100% of the charges incurred for covered services and supplies.

RESCISSION
The Plan Administrator may rescind your coverage if the insured or insured's dependent commits fraud or makes an intentional misrepresentation of material fact. A notice will be provided at least thirty (30) calendar days before the coverage is rescinded. The insured may appeal any rescission.

CLAIM PROCEDURE
Usually the health care provider will file all necessary bills on the insured’s behalf. However, some providers may require payment at the time the service is provided or may send the bill directly to the insured. In these instances, the insured should file a claim and send all itemized medical or hospital bills to the Claim Administrator’s address below.

PRESCRIPTION DRUG CLAIM PROCEDURE
To obtain reimbursement for a prescription drug, the insured will need to pay for the prescription drug at the pharmacy and submit a copy of the drug label with a claim form to the address below.

Bills must be submitted within 90 days after the date of the injury or sickness, or as soon as reasonably possible. Information to identify the insured must be provided and should include: student name, patient name, address, student ID number or social security number, birthdate, and name of the school.

A company claim form is not required, unless the itemized billing statements do not provide sufficient information to process the claim. The insured can print a company claim form or complete the online claim form from the website www.sas-mn.com.
