Certification of Health Care Provider
(Family and Medical Leave Act of 1993)
6. a. If additional treatments will be required for the condition, provide an estimate of the probable number of such treatments.

If the patient will be absent from work or other daily activities because of treatment on an intermittent or part-time basis, also provide an estimate of the probable number of and interval between such treatments, actual or estimated dates of treatment if known, and period required for recovery if any.

b. If any of these treatments will be provided by another provider of health services (e.g., physical therapist), please state the nature of the treatments.

c. If a regimen of continuing treatment by the patient is required under your supervision, provide a general description of such regimen (e.g., prescription drugs, physical therapy requiring special equipment).

7. a. If medical leave is required for the employee’s absence from work because of the employee’s own condition (including absences due to pregnancy or a chronic condition), is the employee unable to perform work of any kind?

b. If able to perform some work, is the employee unable to perform any one or more of the essential functions of the employee’s job (the employee or the employer should supply you with information about the essential job functions)? If yes, please list the essential functions the employee is unable to perform:

c. If neither a. nor b. applies, is it necessary for the employee to be absent from work for treatment?

A "Serious Health Condition" means an illness, injury impairment, or physical or mental condition that involves one of the following.

1. Hospital Care
   Inpatient care (i.e., an overnight stay) in a hospital, hospice, or residential medical care facility, including any period of incapacity\(^4\) or subsequent treatment in connection with or consequent to such inpatient care.

2. Absence Plus Treatment
   (a) A period of incapacity\(^2\) of more than three consecutive calendar days (including any subsequent treatment or period of incapacity\(^2\) relating to the same condition), that also involves:
      (1) Treatment\(^3\) two or more times by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders of, or on referral by, a health care provider; or
      (2) Treatment by a health care provider on at least one occasion which results in a regimen of continuing treatment\(^4\) under the supervision of the health care provider.

3. Pregnancy
   Any period of incapacity due to pregnancy, or for prenatal care.

4. Chronic Conditions Requiring Treatments
   A chronic condition which:
      (1) Requires periodic visits for treatment by a health care provider, or by a nurse or physician's assistant under direct supervision of a health care provider;
      (2) Continues over an extended period of time (including recurring episodes of a single underlying condition); and
      (3) May cause episodic rather than a continuing period of incapacity\(^2\) (e.g., asthma, diabetes, epilepsy, etc.).

5. Permanent/Long-Term Conditions Requiring Supervision
   A period of incapacity\(^2\) which is permanent or long term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider. Examples include Alzheimer's, a severe stroke, or the terminal stages of a disease.

6. Multiple Treatments (Non-Chronic Conditions)
   Any period of absence to receive multiple treatments (including any period of recovery therefrom) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity\(^2\) of more than three consecutive calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), and kidney disease (dialysis).

This optional form may be used by employees to satisfy a mandatory requirement to furnish a medical certification (when requested) from a health care provider, including second or third opinions and recertification (29 CFR 825.306).

Note: Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number.

\(^3\) Treatment includes examinations to determine if a serious health condition exists and evaluations of the condition. Treatment does not include routine physical examinations, eye examinations, or dental examinations.

\(^4\) A regimen of continuing treatment includes, for example, a course of prescription medication (e.g., an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition. A regimen of treatment does not include the taking of over-the-counter medications such as aspirin, antihistamines, or salves, or bed-rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider.
