CURRENT SEMINAR SERIES
Integrative Neuroscience Research Center: Current Seminar Series

Fall 2011

Sept. 20, 2011  Robert Peoples, Ph.D.  
Associate Professor  
Department of Biomedical Sciences  
Marquette University  
“Molecular Sites of Action of Alcohol on NMDA Receptors”

Oct. 11, 2011  Cheryl Stucky, Ph.D.  
Associate Professor  
Department of Cell Biology, Neurobiology and Anatomy  
Medical College of Wisconsin  
“Cellular Mechanisms of Touch and Pain Transduction”

Oct. 18, 2011  Marisela Morales, Ph.D.  
Chief, Neuronal Networks Section, National Institute on Drug Abuse  
“From CRF to the Discovery of a Novel Mesocorticolimbic Glutamatergic Pathway”

Oct. 25, 2011  Kristoff Kipp, Ph.D.  
Assistant Professor of Exercise Science  
Department of Physical Therapy  
Marquette University  
“Sensorimotor Integration in Individuals with Ankle Instability”

Nov. 1, 2011  David Self, Ph.D.  
Wesley Gilliland Professorship in Biomedical Research  
UT Southwestern Medical Center  
“Bidirectional Modification of Reward and Relapse Pathways in Cocaine Addiction”

Nov. 8, 2011  Ellen Unterwald, Ph.D.  
Professor  
Department of Pharmacology  
Temple University School of Medicine  
TBA

Nov. 29, 2011  Mitch Roitman, Ph.D.  
Assistant Professor  
Department of Psychology  
University of Illinois at Chicago  
“Phasic Dopamine Signaling as an Interface Between Metabolism and Motivation”

Dec. 6, 2011  Kathleen Sluka, Ph.D., PT  
Professor  
Physical Therapy & Rehabilitation Science Graduate Program  
University of Iowa  
“Mechanisms Underlying Chronic Musculoskeletal Pain”

All seminars are held at 3:30 p.m. in Schroeder Complex, Room 256.
