

Marquette Online Course Evaluation System (MOCES) Instructor Evaluation Results

The results of the course evaluations are not released until after all final grades for all classes have been submitted to the registrar. At that point, instructors will have access to the aggregated results of their evaluation and the student comments.

The instructor cannot see individual responses nor can the instructor determine who submitted the comments. The instructor also does not know which students responded; the instructor only knows the number of responses and the total enrollment of the class. Below is a sample evaluation report that instructors receive.

In addition to the report below, instructors also see department, college, and university averages for all the items on the survey for comparison.

Question:	Please provide additional feedback about this class.
Response Rate:	46.67% (7 of 15)

1	I enjoyed this class
2	I wish that the class would have focused on more examples.
3	I did not like this class; it was not interesting.
4	Thank you for all your hard work, Dr. Doe.
5	The class was very interesting, but we should have had more time to complete the homework. The exams were fair, but too long for the amount of time we were given. Thank you for responding to emails so quickly. The text book was extremely helpful.
6	Good powerpoint slides. Please speak louder!
