

## Placement Information

**Services Offered:** Workshops: We offer workshops and speakers dealing with job-seeking approaches. We have videotaped interviews with prior candidates, talking about what they felt worked well and some of the pitfalls along the way. Faculty members assist students with mock interviews, feedback, and review of scholarly papers if the student is invited for an on-campus interview.

**Director of Placement Services:** Dr. Michael Monahan is Director of Department placement. They are available to assist students with dossier preparation, mock interviews, interviewing tips, and job hunting skills. They are available to meet with both individual job candidates and with groups.

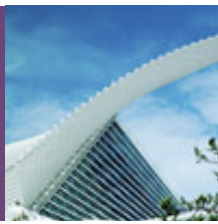

**Department credential file:** Once a candidate becomes an active job seeker, he or she will open a credential file with the department. The department will keep a copy of confidential documents such as recommendations, and other elements in the student dossier.
