

FACHEX and Tuition Exchange (TEP) Programs for Dependents of Marquette Faculty and Staff Entry Term Fall 2019

Marquette University is pleased to participate in two tuition exchange programs:

- 1) Faculty and Staff Children Exchange (FACHEX) Program which is sponsored by twenty-seven Jesuit colleges and universities, and
- 2) Tuition Exchange, (TEP) which includes more than 660 member institutions.

Through these programs, dependent sons and daughters of faculty and staff eligible for tuition remission at their home institution (Marquette) *may* be granted tuition remission at another participating institution. Eligibility for the programs does not mean an award is guaranteed. FACHEX and TEP awards are determined by each university individually and are based upon a competitive review of all certified applicants, utilizing the student's entire freshman application file for each respective university. The information below is pertinent for students entering the Fall 2019 freshman class.

Procedures & Timeline for Outbound FACHEX and TEP Consideration at Participating Universities

Request certification from Marquette's Outbound FACHEX/TEP Coordinator by December 1, 2018.

Complete the *Parent Request for Certification (FACHEX) or (TEP)* found on the website of the [Office of the Provost](#), and submit to Debra Reeder, Outbound FACHEX/TEP coordinator. For TEP only, an administrative fee of \$25 per school for the first 10 certifications requested and \$35 per school thereafter is charged for TEP certification. Fees are payable to Marquette University and must accompany the Request for Certification. (Note that there is no certification fee for the FACHEX program or for certification to TEP schools which also participate in the FACHEX program.)

When eligibility is confirmed, coordinator will submit certification electronically to all universities to which the dependent is interested in applying. Student and her/his sponsoring parent will receive an automated message from Tuition Exchange (whether for FACHEX or TEP or both), confirming the schools to which certification was submitted. Tuition Exchange oversees the administrative functions of these programs and is not involved in the awarding of scholarships by individual institutions.

Apply for freshman admission to universities being considered, according to the specific application requirements and deadlines, etc. of each university.

To be considered for a FACHEX or TEP award, a student must be admitted to the university. Please note that these awards are competitive and certification does not automatically qualify you for admission, nor does an offer of admission mean that an award will be extended.

File the Free Application for Federal Student Aid (FAFSA) as soon as possible after October 1, 2018

While applying for financial aid is not necessarily required for FACHEX or TEP consideration, financial aid programs may assist award recipients with housing costs or make it financially possible to attend the university of choice if not offered a FACHEX or TEP award. Additionally, some member schools require the filing of the FAFSA in order to be considered for these awards. We suggest checking with each university to confirm whether there is a recommended "file by" date for the FAFSA. The FAFSA can be found at www.fafsa.ed.gov.

FACHEX and TEP Review and Notification: March to May 2019

FACHEX and TEP awards are competitive and merit-based. Decisions for these awards are based entirely on the credentials included in the student's admission application and are made independently by each university. Initial FACHEX or TEP award notifications are typically made in early/mid-March of the student's senior year of high school. For some universities (check with the admissions office of the universities of choice), admitted students not offered an award will be placed on a wait list and will be reviewed for additional awards if they become available throughout the spring. Normally, universities notify students that are placed on the wait list of their status. Institutions vary as to the method of notification, using phone calls, e-mails, letters through USPS, or posting updates to the student's financial aid offer online.

Students will need to comply with any date requirements for submission of tuition and housing deposits at the university of choice.

Accept or Decline FACHEX/TEP Award

If a FACHEX or TEP award is extended, please notify the awarding university as soon as possible of the decision to accept or decline the award. Information on how to accept/decline the award and the appropriate deadlines will be included with the award letter.

Recent History of Marquette University Dependents Receiving FACHEX Award Offers

The information below is provided as a reference regarding the number of Marquette dependents requesting certification and FACHEX awards, etc. Every year is different as the number of FACHEX scholarships offered is based upon a balance of inbound and outbound students for all schools.

Entry Term	# of Marquette Dependents Requesting Certifications*	# of FACHEX Awards to Marquette Dependents	# of Marquette Dependents Choosing Marquette	# of Marquette Dependents Accepting FACHEX Awards
Fall 2018	26	32 to 18 students	18	5
Fall 2017	25	17 to 14 students	11	5
Fall 2016	23	24 to 15 students	9	9
Fall 2015	28	13 to 12 students	16	6
Fall 2014	38	30 to 21 students	21	8
Fall 2013	23		11	5
Fall 2012	24		12	6

*The balance of students who are not attending Marquette or another FACHEX-participating university are attending a non-participating university (e.g., a state university or other private college, etc.), attending a participating university without a FACHEX award, or are not attending college at this time.

No historical information is available for TEP awards as this is Marquette's first year of membership.

Anecdotal data indicates that students are more likely to receive a TEP award than FACHEX simply because of the number of member schools.

General Information about Awards

FACHEX and TEP awards are not automatically granted nor guaranteed to eligible dependents of employees of participating Jesuit institutions. FACHEX and TEP awards are selected upon competitive and merit-based review.

Preference for FACHEX and TEP awards is generally given to new freshman applicants. Students currently attending a participating university without a FACHEX or TEP award and who remain eligible/become eligible for the program during the course of their enrollment should contact the Incoming FACHEX or TEP coordinator at

that university to learn whether it is possible to be placed on a waiting list for any available awards not filled by new freshmen applicants and to confirm any necessary certification or other requirements. It is highly unusual for a student to receive a FACHEX or TEP award after the freshman year.

FACHEX awards are for full tuition. TEP awards may be for full tuition or for a set amount for 2019-2020 of \$37,000. Each institution determines whether they will award the set amount or full tuition.

Some institutions in the programs have other fees associated with the award. Be certain to read any award letter carefully to know what is expected of award recipients.

It is worth noting that 23 of the 27 Jesuit schools in the FACHEX program are also members of Tuition Exchange. In some cases, those schools offer different award amounts for FACHEX and TEP. An award recipient is not given a choice of which they want (FACHEX or TEP). That decision is made by the awarding institution. Awards made under FACHEX and TEP are based on the numbers required to maintain a balance of imported and exported students in each exchange program (the balances for each program are independent of each other).

FACHEX and TEP awards are applicable to undergraduate study only.

FACHEX and TEP awards do not apply toward part-time, summer studies, or graduate studies, nor do they cover student fees, room, meal-plan, books or other school-related expenses.

Each university determines whether the FACHEX or TEP award covers the additional tuition fee if students enroll in more than 18 credits per semester.

The FACHEX or TEP award may apply toward some study abroad programs held off the university campus. Please consult with the university's student financial aid and study abroad offices for specific information.

FACHEX or TEP award recipients are expected to complete their undergraduate degree in four years (8 semesters) and are not ordinarily eligible for tuition remission for longer than four years. Any exceptions are considered on a case-by-case basis.

For FACHEX and TEP Award Recipients - Terms and Conditions for Award Continuation at Marquette University*

FACHEX or TEP award recipients must remain eligible to return to the university each semester, maintain continuous, full-time enrollment at the university, enroll in and complete at least 12 credits each semester, meet the usual academic and other requirements for admission to, and retention by, the university and his/her college or school, remain in good academic and disciplinary standing with the university, and meet university Satisfactory Academic Progress standards.

The parent/guardian who serves as the eligible employee for the award recipient must remain eligible for the benefit at Marquette University (or the student's home institution). A letter of certification is submitted annually by the FACHEX/TEP coordinator to the university that the student is attending.

*These continuation requirements apply to students attending Marquette University. Students attending other universities should carefully review that specific university's continuation requirements to remain in compliance.
