For new administrative lines, please contact Human Resources about completing the Job Evaluation Request Form or the Position Evaluation Questionnaire. New full-time faculty positions, temporary administrator and support staff positions do not need these forms.

2. Direct Deposit

As of July 1, 2007, all new full-time regular and temporary hires will be required to sign up for direct deposit.

3. Faculty Appointments

A. Recruiting

All full-time positions and part-time regular non-faculty positions will be posted before an individual is hired to fill that open position. Part-time regular and temporary faculty positions and part-time temporary non-faculty positions do not require a posting.

Requisitions and Applications completed online

To post an open position, use the careers@marquette.edu/hr site to submit an online requisition (formerly referred to as ATR). All candidates for open positions will apply using the careers@marquette.edu web page. Administrators and Support Staff applicants will use the standard online application for employment. Faculty candidates will complete the Faculty Profile. For information and instructions on the Careers@MU site, refer to the FAQ document at:

<http://www.marquette.edu/hr/empres/HRHiringManagerFAQS.shtml>

and contact Human Resources with any additional questions.

There are occasions that applicants directly send their resume to the hiring department. It is recommended that candidates who were referred internally to formally submit their application using careers@marquette.edu for proper processing.

Applications managed online

The hiring department will screen candidates using the information obtained during the online application process, including attached resumes, cover letters or other required documents. The hiring department will manage the applicants by indicating a status for each candidate, such as not hired, interviewed/not hired, did not meet minimum qualifications, or recommended for hire.

Acknowledgement letters and Applicant Tracking Post Cards

Acknowledgement letters and Applicant Tracking Post Cards will no longer be necessary. Affirmative action information will be collected through the online application process. Each applicant will receive a confirmation number at the completion of the application process with a confirmation message which can be customized to each search by the hiring department.

Affirmative Action Forms

Affirmative Action Forms are no longer required. HR will send a final copy of the affirmative action information to the department once a candidate has been recommended for hire.

12. What if an employee does not have a social security number?

Ideally, all new employees must have a validly issued social security number and have provided that number to Student Employment or Human Resources at or before the time of hire.

In the event a new employee does not have a validly issued social security number, he/she must provide to Student Employment or Human Resources **no later than 72 hours after hire** (similar to I-9 documentation) an official “receipt” that proper application has been made. If such receipt is not provided within this 72-hour period, the employee will **not** be allowed to continue working until such time that it is satisfactorily provided.

If, after a reasonable period of time (no later than 6-8 weeks), a hired employee who had produced a valid receipt of social security application at time of hire still has not received or produced a valid social security number, he/she **may** be suspended from employment until the situation is addressed. If this occurs both Student Employment or Human Resources and General Counsel must be consulted to determine the appropriate course of action.

13. Contact ITS for the following:

- Any system, software, equipment, etc. that requires access or connection to the Marquette network
- Hosting of Marquette data on any other network other than Marquette
- Development of, use of, or access to any software application (web-based or otherwise) that requires a contract
- Any system that requires the use of a Marquette username/password or Marquette IP/DNS addressing information

14. Nine Month Contracts and Ten Month Pay

Originally we had a 10 month contract, for grant purposes we switched to 9 month contract but did not take away a month of pay so faculty have 9 month contract based on 10 month pay. Thus they only get 2 months of additional pay in summer.

15. Summer Naturals

For teaching and research during the summer, outside of contract dates, for full-time faculty use natural 6005 so faculty will get TIAA CREF. Write Teaching or Research in the Other-Describe field in Additional Pay section. For administrative duties during this time period use 6010, this does not get TIAA CREF.

16. Questions
