STUDENT ELIGIBILITY

Full Assistantship Recipients: Graduate students who receive full assistantships (defined as 18-credit per year tuition scholarships with minimum stipends of $13,200) who have also received award offers stating they are eligible for University-paid health insurance, qualify to have their entire annual premium paid by the University.

Full Fellowship Recipients: Graduate students who receive full graduate fellowships (defined as 18-credit per year tuition scholarships or their equivalent in continuing enrollment fees, with minimum stipends of $13,200) who have also received award offers stating they are eligible for University-paid health insurance, qualify to have their entire annual premium paid by the University.

Less than Full Assistantship Recipients: Graduate students who receive at least a half-assistantship but less than a full assistantship (defined as a minimum 9-credit per year tuition scholarship with a minimum stipend of $6,600) who have also received award offers stating they are eligible for University-paid health insurance, will be eligible to have a portion of the premium paid for by the university when they pay a premium of $215.

On-line students or distance learning students taking home study, correspondence, or television courses are not eligible to enroll in the insurance plan.

Students must be physically and actively attending classes on campus to enroll in the insurance plan. Except for medical withdrawal due to a covered Injury or Sickness, any student withdrawing from school during the first 31 days after their effective date of coverage shall not be covered under this health insurance plan. Students who graduate or withdraw from school after 31 days, whether involuntarily or voluntarily, will remain covered under this insurance plan until coverage expires.

The Plan Administrator reserves the right to determine if the student has met the eligibility requirements. If the Plan Administrator later determines the eligibility requirements have not been met, its only obligation is to refund the premium.

COVERAGE FOR DEPENDENTS

Students who enroll in the insurance plan may also enroll their eligible dependents. Dependents must enroll when the student first enrolls in the insurance plan and must enroll for the same coverage as the student.

PRE-EXISTING CONDITIONS
The Policy does not cover any condition which originates, is diagnosed, treated, or recommended for treatment within the 12 months immediately prior to insured person’s effective date of coverage.
A pre-existing condition is subject to a 12 month pre-existing condition waiting period. During this waiting period, the Insured person must be continuously covered under the Policy for 12 consecutive months. The pre-existing condition waiting period must expire before benefits for a pre-existing condition will be considered for payment under the Policy. If any break in continuous coverage occurs, the pre-existing condition exclusion will apply.

Provisions that Reduce or Eliminate the Pre-existing Condition Waiting Period:

- If an Insured person had 12 months of continuous coverage under a prior student health plan, the Injury or Sickness which began during the prior year of coverage will not be considered a pre-existing condition.
- The pre-existing condition waiting period will be reduced by the period of time an Insured person was covered by prior creditable coverage, if such coverage was continuous (no break in coverage for 63 days or more to a date immediately prior to the effective date of coverage under the Policy). Proof of prior creditable coverage must be provided by submitting a Certificate of prior coverage from the prior medical plan or other satisfactory evidence of coverage.

Prior Creditable Coverage means the prior student health insurance policy of the Policyholder or other health coverage provided in the United States under any of the following: a group health plan; health insurance coverage under any hospital or medical service policy or certificate; hospital or medical service plan contract; or health maintenance organization contract; Medicare; Medicaid; military health care; a medical care program of the Indian Health Service or of a tribal organization; a state health benefits risk pool; the Federal Employee Health Benefits Program; a public health plan; or a health benefit plan of the Peace Corps.

C. For transitional treatment arrangements - a maximum of 90% of the first $3,000.00 of covered charges. “Transitional Treatment Arrangements” means services for the treatment of nervous or mental disorders or alcoholism or other drug abuse problems that are provided in a less restrictive manner than inpatient hospital services but in a more intensive manner than outpatient services. To the extent benefits are provided under the Policy for inpatient hospital care, benefits will be payable for home care if visits are required at the insured person’s home and such visits are provided or coordinated by a state-licensed or medicare-certified home health agency or a certified rehabilitation agency. The Policy will pay the usual and customary charges incurred for such services as limited below:

   1) Hospitalization or confinement in a skilled nursing facility would otherwise be required if visits to insured person’s home are not provided, and

   3) A “plan of care” has been established by the attending physician, which will be reviewed every 2 months unless the physician indicates in writing that a longer review period is sufficient. If insured person is confined in a hospital prior to the commencement of home care, the attending physician’s “plan of care” shall also be approved by the physician who was the primary provider of services during the hospital confinement.

B. Covered Services do not include any services provided by any person residing with insured person or any family members, and are limited to:
   1) Visits for part-time or intermittent home nursing care by or under the supervision of a registered nurse.

   4) Visits for nutrition counseling provided by or under the supervision of a registered dietitian.
   5) Charges for the evaluation of the need for and development of a plan, by a registered nurse, medical social worker or physician extender, for visits to insured person’s home.
   6) Charges for medical supplies, drugs and medications prescribed by a Physician.
   7) Charges for laboratory services provided by or on behalf of a hospital which were included in the attending Physician’s “plan of care”.

Benefits Payable for covered services items (1) through (5) are limited to a maximum of 40 visits during any policy period. Covered Services item’s (6) and (7) are payable to the same extent they would be payable during a hospital confinement.

Each visit by a person providing services under a home care plan for evaluating the need for or developing a plan shall be considered as one home care visit. Up to 4 consecutive hours in a 24-hour period of home health aide services shall be considered as one home care visit.

Skilled Nursing Home Confinement
To the extent benefits are provided under the Policy for hospital care, benefits will be payable for skilled nursing home confinement for up to 30 days upon transfer within 24 hours from a hospital to a licensed skilled nursing home. The maximum payable for each day of confinement in a licensed skilled nursing home will be the daily rate established for such facilities by the Department of Health and Social Services.

COORDINATION OF BENEFIT

The Coordination of Benefits (COB) provision applies to the Policy when the insured person has medical insurance coverage under more than one Plan. The order of benefit determination rules govern the order in which each Plan will pay a claim for benefits. The Plan that pays first is called the Primary plan. The Primary plan must pay benefits in accordance with its policy terms without regard to the possibility that another Plan may cover some expenses. The Plan that pays after the Primary plan is the Secondary plan. The Secondary plan may reduce the benefits it pays so that payments from all Plans do not exceed 100% of the charges incurred for covered services and supplies.
