Course Title: Introduction to Theology

Description:

This course examines the major sources, teachings, and questions of the Christian tradition. It will begin with a study of the Bible, both Old and New Testaments, and will continue with the foundational texts of Christian theology, from the earliest Christian communities to the modern era. Special attention will be given to the coherence of the tradition as well as to its relevance to contemporary issues. This course will introduce the student to 1) the Christian understanding of God and humanity's relationship to him; and 2) the way this understanding is the result of a centuries-long process of theological development.
