UNDERGRADUATE COURSE DESCRIPTION

Term: Fall 2010
Instructor: John Laurance, S.J.
Course #: THEO 2310
Section: 102
Course Title: Explorations in Theology

Description:

The overall goal of all sections of THEO 2310: “Explorations in Theology” is a deeper understanding of the human person in relationship both to God and to the human community as realized most fully in the Christian church. Accordingly, section 102 focuses on (a) Vatican II’s theology of the church as fundamental sacrament of salvation; and on (b) the Eucharist as the primary sacramental enactment of the church’s perennial life of faith—with special regard to liturgical vestments, furnishings, architecture, symbols, feasts and seasons.
