Term:  Spring 2013  
Instructor:  John Laurance, S.J.  
Course #:  THEO 2310  
Section:  106  
Course Title:  Explorations in Theology

Description:

According to the University’s Core of Common Studies, the overall goal of all sections of THEO 2310: “Explorations in Theology” is a deeper understanding of the human person in relationship both to God and to the human community as realized most fully in the Christian church. Section 106 achieves this goal by focusing on (a) Vatican’s II’s theology of the church as fundamental sacrament of salvation; and on (b) how that theology is sacramentally expressed both spatially and temporally, in the church’s liturgical year and in her liturgical architecture, along with other related liturgical symbols.
