

## Internships Available for BISC Students for Spring 2023

*The internships available are unpaid internships for which the students may receive academic credit. Students will receive up to 3 credits in the spring by signing up for BISC 4986. **BISC 4986 would count as a BISC elective course.** Applicants will go through a selection process. The selection will be based on seniority and how this internship may benefit the student's career after graduation. Students will be asked to meet with the internship director two times per semester and provide a supervisor evaluation form at the end of the semester. Each student is required to do an oral presentation and write a reflection paper. **Some of the internships may applied toward the MCC ESSV2 requirement.***

## Career exploration Internship

### MCW-Therapeutic Accelerator Program

#### Research and Development Administration Internship

The Therapeutic Accelerator Program in the Department of Pharmacology & Toxicology at the Medical College of Wisconsin is offering an internship in Research and Development Administration beginning fall semester. The internship will center around 3 experiential learning cores and culminate in a poster presentation at the end of the semester.

1. Biohealth industry and community engagement
2. Grants administration
3. Research and development project oversight

We are seeking a senior in the Department of Biomedical Sciences **with interest in career exploration that spans academia, industry, and community organizations.** Internship learning opportunities and responsibilities will include forging relationships with new partners in regional biohealth companies, inviting scientist and recruiter guests to networking / educational events for Milwaukee area student and trainee-level scientists, event planning, ordering lab supplies and coordinating services for awarded R & D projects within budget, maintaining databases and records for grants administration, and tracking milestones on development projects. The ideal candidate will be comfortable with professional communication and motivated to affect change in the scientific ecosystem of Southeastern Wisconsin.

#### Qualifications:

- BISC students, preferably a senior. There is a possibility of taking a junior intern.
- Preference to students that are tracking non-clinical track; and have interest in pursuing a career in biotech or pharmaceutical.
- Prefer a GPA of 3.0 or higher
- Ideally, the intern will have some experience or interest in Excel and analytics work.
- The ideal candidate should be comfortable with professional communication
- Interns will need to provide their own transportation

#### Timeline:

- Applications due: January 4<sup>th</sup>
- Internship length: 1/16/23 through 5/9/23
- General Time Commitment: 8-10 hours per week. The time is flexible. The intern organizes the time with the supervisor.

#### How to apply:

Interested students should apply by submitting the form found here: [Application Form](#). The form will request the following:

- Your personal statement explaining why you should be considered for this internship.
- A brief résumé
