

Executive & Professional Education

Custom-built learning. Grounded in Jesuit values. Designed to deliver results.

Invest in and upskill your workforce while saving the time and cost investment of an MBA. At Marquette, we deliver custom-designed, expert-led learning experiences built specifically around your organization's objectives and needs, not a generic curriculum.

- Our Executive & Professional Education programs deliver practical, real-world skills, habits and strategies that inspire participants to create **immediate, measurable impact** on your team.
- Programs are **delivered at your pace** and span multiple weeks, a single day or a different cadence that works for you. We accommodate in-person, hybrid and virtual formats.
- You're partnering with a **nationally ranked, Jesuit university** with a deep commitment to ethical leadership and practical application.
- Our faculty stay on the **cutting edge** of business trends, strategy and technology.

"Bridge to Business has played a critical role in shaping HUSCO's leadership pipeline. With 30+ graduates now leading teams and functions, the program gave our engineers the business acumen needed to make better decisions, lead more effectively, and deliver greater impact across the organization."

- Angie Stemo, HUSCO International Vice President of Global Human Capital
