The responsibility for the proper display of a parking permit lies with the holder of that permit. Failure to properly display any parking permit will subject the holder to a citation.
- Information provided to obtain a parking permit or authorization must be correct and current. If there is a change in information, such as the license plate number, it must be reported to the Parking Services Office immediately.
- A permit will be honored only in the parking areas for which it is designated. Entrance signs posted at all university parking facilities clearly indicate the permit(s) required for parking in that area.
