- The Marquette University Police Department issues safety alerts through text messages and emails to Marquette students.
- **Text messages**, which are sent as soon as possible after an incident, provide information about the location and nature of the incident. The university's policy is to issue a safety alert text message when there is an ongoing threat to campus.
- **Emails** include additional information, including suspect and vehicle descriptions, if available. The alerts are for students in the immediate area so they know to avoid a certain area and/or watch for suspects who match the description.
- **Students:** To receive MUPD safety alerts, as well as weather-related closing information, enroll in the university's emergency text messaging system by entering your cell phone number in the ["Personal Information" section](#) of [CheckMarq.](#)
- **Faculty:** Those with university-owned cell phones will automatically receive text alerts. Faculty and staff without university phones can opt in to receiving text alerts from the university by registering their personal phone number in the ["Personal Information" section of MyJob](#)

Sign Up for Safety Alerts cont.

1. Login to CheckMarq using your username & password at <https://checkmarq.mu.edu>
2. Access 'Student Center' located at the bottom of the homepage
3. Scroll down to 'Personal Information' Section and click 'Campus Phone'

Note: To access Campus Email, click 'Campus Email' & follow the same steps
