Marquette University’s online MBA is a 28-month, fully-online, cohort MBA program with students taking 2–3 classes per term each fall, spring and summer. The cohort size is 25 students. Same great faculty, same curriculum, with more convenient delivery.

The total program is 33-39 credit hours depending upon a student’s undergraduate background. Students with an undergraduate degree in business will take a slightly different path the first two terms. All students are required to complete a non-credit, teams-based exercise in semester one to assist the students in forming a virtual team.

The admissions standards and process are the same for the online cohort as it is for our traditional MBA program. We do not require work experience, but it is highly recommended.
