

AI in Real Estate Lab Student Fellowship

A campus-wide AI learning and development experience | In partnership with AI Forge, Marquette's leading AI student club

Build with AI. Work with industry. Learn from the best.

Join a highly selective cohort of 12 Marquette students working alongside nationally renowned faculty and 12 leading companies across real estate development, investment, architecture, contracting, law, finance, and engineering.

Modeled after programs at other leading national universities — and unlike anything else at Marquette.

What you'll do

- Build AI prototypes, tools, and automations for real companies
- Learn advanced AI and machine learning from AI experts
- Collaborate weekly with company leaders
- Present your work and learn best practices with talented peers

Who we're looking for

Any Marquette student, undergrad or grad, from any college, with the following:

- ✓ Experience building with AI (tools, automations, prototypes)
- ✓ Curiosity, grit, and an entrepreneurial mindset
- ✓ Strong communicator and collaborator
- ✓ Motivated to learn, not just add a line to a resume

Real estate experience **not** required. Coding encouraged, not required.

The details

Commitment	2–10 hrs/week, Sept 2026 – May/June 2027
Cohort size	12 Fellows
Type	Unpaid fellowship
Deadline	Sunday, Sept 20, 2026 · 11:59pm CST
