

**Instructions**

**Instructions for Student Employee:**

- Federal law requires that employers verify that all employees are made aware of hazards in the workplace. All new employees are required to read the "Hazard Communication" training document and sign a sheet that they have been informed. Please go to the [Risk Management](#) website for more information.
- This process cannot be waived. You must complete this before you can begin work. Contact Student Employment Services located in the Office of Student Financial Aid for further information.
- Read the information, then fill out and sign this form and return it to Student Employment Services. Student Employment will maintain a record of all student employees who have complied.

**Acknowledgement**

I have received information on [Hazard Communication](#).
