NOTE: Because of printing deadlines, it is possible that the roster of degree candidates as represented in this program may not be accurate. This program is not an official university document and does not constitute a certification that all those whose names appear here have completed degree requirements. Degree conferral is acknowledged through the official transcript of the university.
Marquette University has been a center of dynamic interaction between faculty and students in the pursuit and discovery of knowledge for 140 years. This interaction has occurred within the rich tradition of the university’s Catholic, Jesuit and independent heritage. In executing its mission as an institution of higher learning dedicated to undergraduate, graduate and professional education, Marquette is committed to intellectual and spiritual excellence.

ACADEMIC DRESS

The various gowns and hoods preserve the style of their medieval origin and indicate by color and design the degree and the institution by which the degree is conferred. Black is the basic color for gowns in the United States. The bachelor’s gown is distinguished by its long, open sleeves; the master’s by its closed, slitted sleeves; the doctor’s by its full sleeves trimmed with banks of velvet. The velvet on a doctor’s gown may be black or a color denoting the field in which the degree is earned.

Academic hoods vary in length according to the degree and are lined with the colors of the institution by which the degree is conferred. Hoods of Marquette University are lined with blue and gold.

The yoke of the hood is edged in a color that indicates the field in which the degree is taken. The color of the tassel on the cap is also indicative of that field.

Dr. Michael R. Lovell
President
Marquette University

Dr. Michael R. Lovell is Marquette University’s 24th president, serving since 2014. Under his guidance, Marquette focuses on innovation, entrepreneurship, and community renewal and development — all consistent with the university’s Catholic, Jesuit mission.

President Lovell and his leadership team are rising up to lead Marquette through one of the most pivotal times for this country, when it is simultaneously facing national crises in health, the economy and racial injustice. Serving as a foundation for Marquette’s response is its strategic plan, Beyond Boundaries. At the center of every undergraduate’s educational experience and rooted in Jesuit perspective and values is the Marquette Core Curriculum, implemented in fall 2018 and undergoing continual reevaluation. The Campus Master Plan Initiative is integrating academic, physical and financial priorities over the next decade.

The university has transformed the Strategic Innovation Fund, unveiled by President Lovell in 2014, into the two-track Marquette Impact Challenge. It continues to cultivate and fund innovative ideas from students, faculty and staff with a desire to involve community organizations. It has further expanded the President’s Challenge track to encourage community-focused responses to the coronavirus pandemic.

Working with business and community leaders in Marquette’s neighborhood, President Lovell helped create the Near West Side Partners, a nonprofit focused on strengthening economic development, housing, neighborhood identity and safety. He and his wife, Amy, have formed Scaling Wellness in Milwaukee (SWIM), a community-wide effort addressing impacts of generational trauma.

President Lovell serves as co-chair of the Greater Milwaukee Foundation’s Milwaukee Succeeds initiative and co-chairs Innovation in Milwaukee. The organizational boards on which he serves include: Association of Jesuit Colleges and Universities, Big East Conference and Children’s Wisconsin. He serves on executive committees of the Greater Milwaukee Committee, The Water Council, Morgridge Family Foundation and Wisconsin Association of Independent Colleges and Universities, for which he is chair. President Lovell is also a member of the Council on Competitiveness and co-chair of its University Leadership Forum.

Prior to Marquette, he served the University of Wisconsin–Milwaukee as chancellor and, earlier, dean of its engineering college. He previously held academic and research leadership positions at the University of Pittsburgh and University of Kentucky.

President Lovell holds three mechanical engineering degrees, including a doctorate from the University of Pittsburgh. He has received awards from the National Science Foundation, Society of Manufacturing Engineers (SME) and numerous other organizations; is a fellow of the American Society of Mechanical Engineers and National Academy of Inventors; and holds U.S. and global patents.
HONORARY DEGREES

DOCTOR OF LETTERS

Conferred on

John Ridley

Candidate will be presented by
Kris Holodak, Assistant Professor of Digital Media and Performing Arts

John Ridley is a director, Oscar-winning screenwriter, novelist, playwright and showrunner. He received the Academy of Motion Picture Arts and Sciences Award for Best Adapted Screenplay for 12 Years a Slave in 2014. His critically acclaimed documentary about the Los Angeles uprising, Let It Fall: Los Angeles 1982–1992, premiered in theaters and aired on ABC in 2017.

Ridley wrote and directed the innovative Jimi Hendrix biopic, Jimi: All Is by My Side, and was the creator, director and executive producer of ABC’s Emmy-winning anthology series American Crime, which aired from 2015 to 2017. He received the NAACP Image Award for Outstanding Director in a Drama Series and a nomination for the Emmy Award for Outstanding Writing for a Limited Series for American Crime. His limited series Guerrilla, starring Idris Elba, Freida Pinto and Babou Ceesay, aired in 2017.

A Milwaukee native, Ridley opened No Studios in 2018. No Studios was designed to provide a social space dedicated to the creation, curation and presentation of art in Milwaukee, offering space for local use in creative fields to a curated group of tenants. In 2019, Marquette cohosted No Studios’ inaugural social justice summit, “Art Activated,” bringing together a variety of activists, artists, authors and academics to discuss the lived experience of disenfranchisement and offer solutions to some of the most pressing social justice issues affecting us locally, nationally and internationally.

The Other History of the DC Universe, a new graphic miniseries he is writing for DC Comics, launched in 2020 to critical acclaim. Ridley considers important questions in his work, including, “What is this person going through? What have they been gifted in life? What do they have to discover? What are the things they are fighting for or against?” Ridley is the author or co-author of seven novels and three graphic novels, including The Authority: Human on the Inside. He also wrote the play Ten Thousand Years, which had its premiere in 2005.

Ridley earned a bachelor’s degree in East Asian languages from New York University. He performed standup comedy in New York and made appearances on Late Night with David Letterman and The Tonight Show Starring Johnny Carson before writing for television sitcoms including Martin, The Fresh Prince of Bel-Air and The John Larroquette Show.

Ridley’s novels, screenplays and other writings regarding race relations and justice resonate with a Catholic, Jesuit education where critical thinking is the cornerstone of learning.

Because of his ability to so uniquely communicate the importance of storytelling in understanding our human experience and his unwavering commitment to social justice, President Lovell, I hereby recommend John Ridley for the Marquette University degree of Doctor of Letters honoris causa.

Dear Graduates,

You are superstars! The immense challenges you had to navigate during an unprecedented final year and how you demonstrated grace, resilience and perseverance were truly remarkable. On behalf of the Marquette alumni community, we are extremely proud of what you’ve accomplished. Congratulations and welcome to our alumni family!

For this, the Class of 2021 will hold a place of distinction in Marquette University history. Moreover, the grit you gained during this time, combined with your academic preparation and foundation in the Marquette values of excellence, faith, leadership and service, will enable you to make an extraordinary impact locally and globally. We look forward to hearing about your successes.

Let us help you make that impact: Engage fully with our Alumni Association and build your Marquette network to support your future endeavors. Today, we walk with you and we invite you to walk with us — our more than 115,000 proud Marquette alumni across the world. We celebrate you as you go out into the world to Be The Difference.

Monica Oliver, Sp ’81
President
Marquette University Alumni Association

Monica Oliver, Sp ’81
President
Marquette University Alumni Association
Congratulations on your graduation from the Marquette University Graduate School!

I want to offer a few parting thoughts. First, your graduate degree is your accomplishment, but you did not do it alone. Friends, family members, mentors, teachers and staff have provided encouragement and support, and probably made sacrifices to help you in your pursuits. Remember to thank those who have helped you accomplish your journey.

Second, remember that there is more to life than your education. Graduate studies represent a very consuming, inward-looking process. Too easily we can forget that there is more to life than what we study. Make time for yourself and others. Stay active and take time to care for your relationships as well as spiritual needs.

Third, with your graduate degree, you are being recognized for two things. You are now an expert in your area of study, and you have acquired skills that few have acquired. Remember to use these two gifts for the betterment of others.

In closing, on behalf of the Graduate School of Marquette University, I am pleased to join your friends, relatives and faculty in congratulating you on this great accomplishment. I am thrilled to be a part of celebrating your success.

Dr. Douglas W. Woods
Vice Provost for Graduate and Professional Studies and Dean of the Graduate School

</table>
Graduate School of Management Class of 2021 graduates, it has certainly been a year you will always remember. I would like to congratulate you on this amazing accomplishment of completing your advanced degree.

We, the faculty and staff at Marquette and the College of Business Administration, were given the tremendous opportunity to embark with you on your educational journey just a few short years ago. We watched you grow and develop; devote countless hours of energy and effort toward your education; and invest your time, your passion, and your service to our community and world. We could not be prouder of the individuals you have become.

As you transition toward the exciting opportunities that lie ahead of you, and wherever life takes you, I encourage you to remember that being a graduate of this distinguished university is not only about where you go in life, but how you get there. Continue to live and lead as women and men in service to others, continue to be committed to excellence, always give thanks for that which you achieve in grace, and hold tightly to your faith. I know you will accomplish great things through doing good. Remember, you are and will continue to be an important part of Marquette.

Timothy Hanley
Acting James H. Keyes Dean, College of Business Administration

MASTER IN ACCOUNTING ANALYTICS

Congratulations on earning your professional degree from the College of Health Sciences at Marquette University! You really have much to be proud of as a graduate of an incredibly special program. Thank you for choosing us and for allowing us to accompany you on your remarkable journey.

Graduation can be bittersweet. On one hand, you’ve worked extremely hard and have accomplished much, and are undoubtedly excited to begin life’s next chapter. On the other, it can be hard to leave a place where so many strong bonds and great friendships were formed. Here’s the very good news. Many bonds and friendships will last a lifetime. In that sense, Marquette is a place you never really leave, and it never really leaves you.

On behalf of the College of Health Sciences faculty and staff, please accept my sincere congratulations! You are an enduring part of us now — a living example of the pride, passion and promise of a very special academic program, in a very special college, at a very special university.

Dr. William E. Cullinan
Dean and Professor, College of Health Sciences

You are entering — you have entered — a profession, both learned and helping, in which you can do important things. In some instances, it will be apparent that you have helped people. These may be your clients.

They may also be those following you into the profession of law. For myself, such an experience occasionally reminds me of the passage early in *The Great Gatsby*, where Nick feels lonely after first moving to West Egg. But upon being asked to give directions to someone, "more recently arrived than I," Nick reports, "I told him. And as I walked on I was lonely no longer. I was a guide, a pathfinder, an original settler." So it will be with you, as you gain experience and widen your circle of effect.

In other instances, it will not be evident that you succeeded in your attempt to help. Yet this work can be satisfying, even important, nonetheless. Here, too, some words from literature capture my hope for your life in the law. "Ithaka," by C. P. Cavafy, a modern Greek poet, alludes to the legendary journey of Odysseus. Cavafy uses it as a splendid metaphor. I encourage you to read the poem — and, as you step forward and embrace the "rare excitement" of professional challenges, to keep "the marvelous journey" of learning, both within the law and more generally, "always in your mind."

For there is so much for you to discover.

Joseph D. Kearney, J.D.
Dean and Professor of Law

Congratulations to the School of Dentistry’s Class of 2021. Not only does our world need more highly skilled dental professionals like you, it also needs individuals who have gained the perspective of oral health care that comes from serving urban and rural communities of Wisconsin with the unique background of a Jesuit-inspired education.

I know you appreciate that Marquette is committed to providing the finest dental education possible, based on a tradition that invites innovation and fosters professional growth and ongoing development. Yet it takes highly talented and extremely motivated students to make our programs truly successful. Thank you for your dedication to your education, especially under the conditions we faced as you completed this year.

You are now joining a proud Marquette dental tradition that traces back its history more than 125 years. As you have learned from the many Marquette dentists who strengthen our faculty and serve communities nationally, your Marquette education will be an important foundation to your overall success.

On behalf of the faculty and staff of the Marquette School of Dentistry, please accept my best wishes for your accomplishment today and in the years to come.

William K. Lobb, D.D.S., M.S., M.P.H.
Dean, School of Dentistry

Congratulations, Graduates!

Your life journey brought you to Marquette, and it is here in the Klingler College of Arts and Sciences that you experienced the rich heritage of a Catholic, Jesuit education. This education is grounded in Ignatian teaching that challenges you to experience new things and to reflect on what you have learned, so that you can put your knowledge into action.

Your goals and outlook may have changed through participation in a classroom, laboratory or service activity. These experiences helped you develop competencies in creative imagination, critical thinking and communication that are the heart of your arts and sciences education. You persisted in pursuing your goals during a particularly challenging time. I want you to take into the world the values that shaped your education at Marquette: service, excellence, faith and leadership.

These competencies and values will continue to guide you throughout the next phases of your life.

Your Marquette education has prepared you for whatever lies ahead. I am confident that you will encounter exhilarating and transformative new horizons.

We look forward to watching you Be The Difference and make the difference. May you enjoy every blessing and good fortune in the years ahead.

Dr. Heidi Bostic
Dean, Helen Way Klingler College of Arts and Sciences

College of Business Administration Class of 2021 graduates, it has certainly been a year you will always remember. I would like to congratulate you on this amazing accomplishment of completing your degree.

We, the faculty and staff at Marquette and the College of Business Administration, were given the tremendous opportunity to embark with you on your educational journey just a few short years ago. We watched you grow and develop; devote countless hours of energy and effort toward your education; and invest your time, your passion, and your service to our community and world. We could not be prouder of the individuals you have become.

As you transition toward the exciting opportunities that lie ahead of you, and wherever life takes you, I encourage you to remember that being a graduate of this distinguished university is not only about where you go in life, but how you get there.

Continue to live and lead as women and men in service to others, continue to be committed to excellence, always give thanks for that which you achieve in grace, and hold tightly to your faith.

Timothy Hanley
Acting James H. Keyes Dean, College of Business Administration
To the 2021 graduates of the Diederich College of Communication:

On behalf of the faculty, staff and your fellow Diederich students, I offer you the heartiest of congratulations. Your accomplishment today is the culmination of hard work and perseverance. You have also shown an incredible reserve of resilience.

In pursuing a degree in communication, you have honed a craft that is needed in today's world. You have within you the ability to tell stories that need to be told and to give voice to the voiceless. Like the familiar hymn reminds us, as a Catholic and Jesuit university, we believe that all are welcome in this place. As you head out to tell your stories of human experience, I challenge you to do so in ways that “build a house where love is found” and “peace and justice meet.”

The world needs communicators and creatives, and I am confident that you are the right people to use your talents to create a world in which, indeed, all are welcome. We in the Diederich College cannot wait to see the world that you will create.

Congratulations once again, and may God bless the Class of 2021.

Dr. Sarah Feldner
Dean, J. William and Mary Diederich College of Communication
It is my distinct honor to recognize recipients of bachelor’s, master’s and doctoral degrees from the College of Education, Class of 2021.

Graduation from Marquette University stands as a significant tribute to your intellect, knowledge, perseverance and passion, as well as your unwavering commitment to the tenets of social justice.

Your class this year withstood historically unprecedented challenges, yet emerged in triumph, stronger and more resilient than ever, prepared to set the world on fire as distinguished educators and mental health practitioners.

The faculty, staff and administrators of the college wish to extend to our graduates the most heartfelt congratulations imaginable. We are intensely proud of you as professionals and extend to our graduates the most heartfelt congratulations.

And as proud alumni, may you hold Marquette University, the College of Education and the Society of Jesus forever in your hearts.

Dr. Alan Burkard
Acting Dean, College of Education

Congratulations, Class of 2021!

The Opus College of Engineering continues to graduate tomorrow’s innovation leaders and global citizens who, in the Jesuit tradition, are prepared to effect change and bring about a more just world. Marquette has provided you a world-class engineering education while also emphasizing the relational skills and conscience to prepare you to be the next generation of servant leaders.

As you have witnessed this past year, you are heading into a world with challenging and complex problems for which there are no right answers. Your Marquette education has given you the foundation to lead by example in being comfortable with being uncomfortable. As an engineer, you have the privilege of creating technology that will profoundly improve the lives of people around the globe. Have confidence in your ability to creatively problem-solve as men and women for others. Embrace the opportunities to live and work with people around the world who will look, act and think differently than you.

Now is your time to step out into the world to help us learn new and better ways to live — and to love. For it is our love for one another that is our greatest gift and light in an uncertain world.

Congratulations, Marquette Engineers!

Marquette University College of Engineering
Congratulations on earning your undergraduate degree from the College of Health Sciences at Marquette University! You really have much to be proud of as a graduate of an incredibly special program. Thank you for choosing us and for allowing us to accompany you on your remarkable journey.

Graduation can be bittersweet. On one hand, you’ve worked extremely hard and have accomplished much, and are undoubtedly excited to begin life’s next chapter. On the other, it can be hard to leave a place where so many strong bonds and great friendships were formed. Here’s the very good news. Many bonds and friendships will last a lifetime. In that sense, Marquette is a place you never truly leave, and it never really leaves you.

On behalf of the College of Health Sciences faculty and staff, please accept my sincere congratulations! You are an enduring part of us now — a living example of the pride, passion and promise of a very special academic program, in a very special college, at a very special university.

Dr. William E. Cullinan
Dean and Professor, College of Health Sciences

It is my honor to congratulate the graduating Class of 2021 from the College of Nursing.

I am particularly gratified to help celebrate our students’ hard work and accomplishments in what has truly been the “year of the nurse,” considering all that nurses have done during this pandemic.

Today, the world needs the Marquette Nurse more than ever. Patients will look to each of you to be that great clinician, and as a Marquette Nurse, you will deliver. You will exhibit cura personalis, courageous leadership, passion for social justice, engaged critical thinking and, most of all, strong advocacy for patients and families in their moments of crisis. Witnessing health care disparities created by racial injustices prevalent in our society, we will leverage your Jesuit education to provide holistic, individualized care in the Ignatian tradition and work to mitigate these disparities.

I am awed by your journey and inspired by the difference you will make for thousands of vulnerable humans. Each will appreciate your care in their own ways and remember how you helped them. You are now our colleagues, joining 8,000 nursing alumni to represent the Marquette University College of Nursing. You are our future leaders who will assist in transforming the health care system and Be The Difference in the world. Congratulations!

Dr. Janet Wessel Krejci, RN, NEA-BC
Dean, College of Nursing

Commencement at Marquette is a symbolic celebration of our students’ accomplishments. We rejoice with families on this momentous occasion. Some students are participating today who have not earned the degree or Latin honors listed herein. Participation in Commencement does not constitute certification of degree conferral or Latin honors. Degree conferral and Latin honors are acknowledged through the official transcript of the university.

NOTE: Because of printing deadlines, it is possible that the roster of degree candidates as represented in this program may not be accurate. This program is not an official university document and does not constitute a certification that all those whose names appear here have completed degree requirements. Degree conferral is acknowledged through the official transcript of the university.

MARQUETTE UNIVERSITY ANTHEM

Hail, Alma Mater!
Thee we do call.
We’re here to greet thee,
Dearest friend to all.
We’re here to show thee,
Our love is strong.
Hail, Alma Mater!
Marquette! Hear our song.
