- 2) INJP 2010 “Introduction to Peace Studies” proposal for the Diverse Cultures Knowledge Area

The proposal was introduced by Richard Robinson on behalf of the sub-committee. Discussion ensued. Discussion resulted in the recommendation that Learning Outcomes be included in the sample syllabus as well as an indication in the syllabus of how class assignments will meet the particular objectives included in the syllabus. Moved, seconded, and approved unanimously.

Old Business

- 1) Planning for the ICLO 2011 – The Committee reviewed questions submitted by members for possible inclusion on the ICLO. Monahan explained that the questions need to be settled by early Spring in order to put them up on D2L. Members discussed the relation between proposed questions and Core Learning Outcomes. Can a multiple choice instrument be effective, or should we move toward an essay format even though we know that students tend not to take this more demanding format seriously?

Meeting adjourned at 4:59 p.m.
